

Hull Local Plan: 2016 to 2032

SPD10 Trees

Supplementary Planning Document

Consultation Statement

October 2018

1. Background

- 1.1 In preparing Supplementary Planning Documents (SPDs) the Council is required to follow the procedures laid down in the Town and Country Planning (Local Planning) (England) Regulations 2012.
- 1.2 Regulation 12 states that before adoption of a SPD the local planning authority must prepare a statement setting out:
 - the persons that the local authority consulted with when preparing the SPD;
 - a summary of the main issues raised by those persons; and
 - how those issues have been addressed in the SPD.
- 1.3 This Consultation Statement accompanies the Trees Supplementary Planning Document. This document provides additional planning guidance on Policy 45 Trees of the Hull Local Plan: 2016 to 2032, which was adopted on the 23rd November 2017.

2. Consultation

- 2.1 Preparation of the draft SPD involved engagement with other Council departments, including arboriculture officers, ecologist and development management officers. The Council also engaged with HEYwoods during preparation. The draft SPD has been through the Council's committee regime and elected members have had the opportunity to comment on the draft document.
- 2.2 The draft SPD was made available for public consultation for six weeks between Monday 6th August 2018 and Monday 17th September 2018. A public notice to publicise this event was published in the Hull Daily Mail on Monday 6th August 2018. The consultation was also reported at Planning Committee on 17th July 2018 and Cabinet on 23rd July 2018.
- 2.3 The draft SPD and associated documentation was made available for inspection on the Council's website and at the following Council

locations:

- the Wilson Centre;
- Guildhall reception;
- Hull History Centre; and
- all Council Customer Service Centres and libraries.

3. Consultation responses and main issues

- 3.1 Following the consultations the Council received three written representations. These were from Hull and East Yorkshire Local Nature Partnership, the Forestry Commission and Yorkshire Wildlife Trust. A summary of these representations, together with the Councils response, is attached at Appendix 1 below. The Council also received comments during meetings with the Local Nature Partnership Board and the HEYwoods Partnership Steering Group. Both the LNP Board and HEYwoods group gave their endorsement to the document.
- 3.2 The main issues raised through the consultation are provided in the appendix below together with the Council's response and suggestion for how the SPD may change. These are also shown as tracked changes within a revised version of the SPD published alongside this statement of consultation.

Appendix 1: Summary of representations received and suggested changes to the SPD

Respondent	Comments Received	Council Response
