

Hull City Council call for residential sites submission form

Strategic Housing Land Availability Assessment (SHLAA)

Brownfield Land Register (BLR)

Please use a separate form for each site you consider has potential for housing development over the next 15 years and complete as comprehensively as possible. Please ensure the details on viability/delivery are completed. Only complete forms for sites that can support 5 or more dwellings or have an area over 0.25 hectares.

Your site will not be considered in the SHLAA/BLR if you don't include a detailed **location map** (Ordnance Survey 1:1250/2500 or up to date Aerial Photograph) which clearly identifies the site boundary. Sites outside of the Hull boundary will not be considered. If you have previously submitted sites for inclusion within previous years SHLAA or BLR, could you please identify this fact and update all required sections of the site submission form.

Each call for sites process will be open from April through to March for consideration within the following years SHLAA. Please return this form and your location plan, by **31st March** to:

email: localplan@hullcc.gov.uk

Hull City Council Residential Call for Sites

The following **disclaimer** will apply to sites contained within the SHLAA and/or BLR without prejudice

1. The identification of sites, buildings or areas within the SHLAA/BLR does not mean that the council would grant planning permission for residential development. All planning applications, including those for residential development will be determined in accordance with the development plan unless material considerations indicate otherwise.
2. The inclusion of sites within the SHLAA/BLR does not preclude use or development for other purposes.
3. Any boundaries shown within the SHLAA/BLR are based on information available at the time of the preparation of the survey. They do not represent an absolute area for any future proposals.
4. The exclusion of sites from the SHLAA/BLR does not preclude their development for residential use.
5. The SHLAA/BLR will represent an estimate of when sites may come forward for development. It does not mean that applications which come forward at different times will be refused on that basis.
6. The SHLAA/BLR will use the information available at the time of the study. The Council does not accept liability for any omissions or factual inaccuracies that may be contained within the SHLAA and/or BLR. Applicants for planning permission are advised to carry out their own assessments and analysis of any site and not rely on the information within the SHLAA and/or BLR.
7. Where the site capacity identified in the SHLAA is based on the surrounding neighbourhood density, this should not be taken as the level of housing which would be most appropriate that the site. The density of any planning application will be assessed through the normal planning process and the SHLAA will not represent an over-riding justification for any particular density.
8. The Council intends the SHLAA/BLR to be a living document which is subject to annual review.
9. The consideration of sites through the Brownfield Land Register process and the entry of a site on Part 1 of the Brownfield Land Register **does not** indicate that planning permission will be granted for housing development, nor that the site(s) will be allocated for housing development in Development Plans or Neighbourhood Plans.
10. Planning proposals on sites with an entry on Part 1 of the Brownfield Land Register will be judged on their merits against the National Planning Policy Framework (NPPF) and relevant development plan proposals unless material considerations indicate otherwise. The Brownfield Land Register may represent a material consideration in the determination of planning proposals. If the land is entered in Part 2 of the Brownfield Land Register it will be granted permission in principle, which establishes the suitability in principle, of land for housing-led development.
