## Section 1. Introduction

- 1.1. The production of an Annual Monitoring Report (AMR) is a legislative requirement under **Regulation 34** of the Town and Country Planning (Local Development) (England) Regulations 2012.  
Available at [The Town and Country Planning \(Local Planning\) \(England\) Regulations 2012 \(legislation.gov.uk\)](https://www.legislation.gov.uk/ukpga/2012/242/schedule/1/paragraph/1)
- 1.2. It is a requirement on all Council's to publish, at least annually, progress on the Development Plan and the timescales set out in the Local Development Scheme (LDS) <sup>1</sup>
- 1.3. It should also include details of co-operation with neighbouring authorities and prescribed bodies, together with some specific details of housing supply and demand and details of community infrastructure delivery. Those details are reported through this document. It is the main tool for assessing the performance and impact of the Hull Local Plan.
- 1.4. The Town and Country Planning (Local Planning) (England) Regulations 2012 set minimum requirements for monitoring reports, which must now provide:
  - The title of the local plans or Supplementary Planning Documents specified in the local planning authority's local development scheme;
  - Including information on the timetable, progress (the date of adoption, where applicable), and any reasons for delay (where applicable) in relation to each document
  - Identification of the policies in the Local Plan that are not being implemented and any steps the local authority intends to take to ensure that the policy is implemented;
  - The number of net additional dwellings, or affordable dwellings, where a policy in a Local Plan specifies a number;
  - Details of any Neighbourhood Development Order or Neighbourhood Development Plans
  - Community Infrastructure Levy receipts, where applicable
  - Details of any action taken under the Duty to Cooperate

---

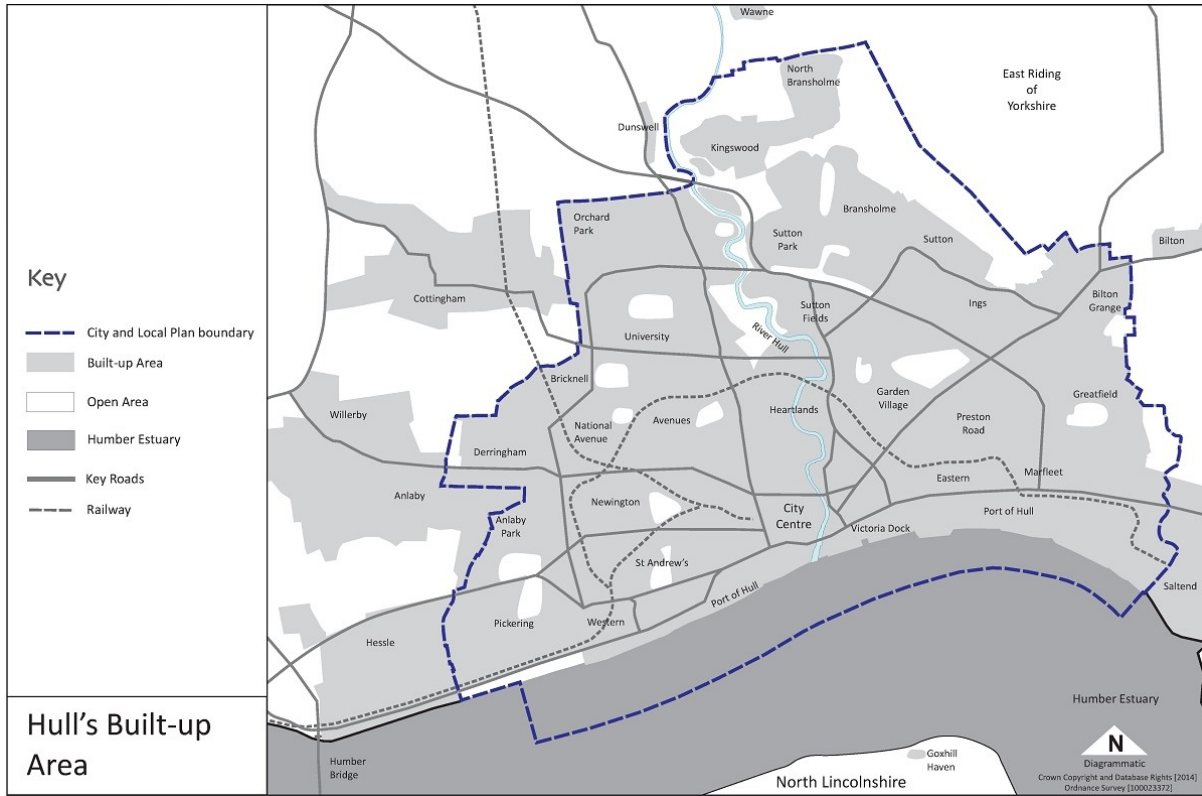

<sup>1</sup> The Local Development Scheme has now been replaced by a Local Plan Timetable as defined by the Levelling up and Regeneration Act <https://www.legislation.gov.uk/ukpga/2023/55/schedule/7>

## Section 2. Hull's Characteristics and Contextual Indicators

### Hull's characteristics

- 2.1. The characteristics of Hull as an urban area and its relationships with surrounding areas and places have a key influence on how residents and visitors live, work and play within and beyond the City.
- The city is compact and highly urbanised; with an area of just 7,145 hectares (27.6 square miles, 71.45 square kilometers) and a population of 267,014 (Census 2021) (Mid Year Population Estimate 2023 – 271,943 (ONS)).
  - The city boundary is roughly semi-circular with a radius from edge-to-centre of approximately 4.4 miles.
  - It is the most densely populated local authority area in the Yorkshire and Humber region (around 3,730 residents per kilometre). It serves a large hinterland of countryside and coast in the neighbouring East Riding of Yorkshire.
  - The River Hull runs through the middle from north to south. Industries in Hull have traditionally located around the rivers Hull and Humber, forming an inverted T-shape.
  - The continuous urban area of the city extends outside the administrative boundary, particularly to the Haltemprice settlements to the west.
  - Hull, therefore, has a close relationship with its immediate neighbour, the East Riding of Yorkshire, many of whose resident's commute into the city for work and for retail, leisure and other activities.
  - Hull's boundary and surrounding built-up area is detailed in Figure 2.1 below.

Figure 2.1 Hull's built-up area

## Contextual Indicators

The Contextual Indicators section summarises some of the key factors underpinning the economic, environmental and social health of the city.

### Population

On Census Day, 21 March 2021:

- Hull's population was 267,014.
- In terms of total population, this makes Hull the 60th largest local authority area in England (out of 309), which is a fall of five places in a decade.
- The population of Hull had grown by 10,614 (4.12%) Census 2011 to Census 2021, when the population was 256,400. This is lower than the overall growth for England (6.6%), but higher than the increase for Yorkshire and the Humber (3.7%).
- The gender split was 133,781 women (50.1%) and 133,233 men (49.9%).
- In Hull, there were approximately 50,000 children and young people aged under 15 years (18.7%);
  - 176,100 people aged 15 to 64 years (65.9%); and
  - 40,800 people aged 65 years and over (15.3%).
- Compared to 2011, there has been an increase of 10.4% in children aged under 15 years, an increase of 0.4% in people aged 15 to 64 years, and an increase of 14.2% in people aged 65 years and over.
- Hull has 3,731 residents per square kilometre. This makes Hull the most densely populated of Yorkshire and the Humber's 21 local authority areas.
- There were 115,500 households in Hull on Census Day; the number of households increased by approximately 2,900 since 2011 (2.6%), when there were 112,600 households.
- Average life expectancy at birth for males is 75.8 years and females was 80.1 years

*Source Hull City Council Insight Team Briefing: 2021 Census Release 1 - June 2022.*

## Health

Key health indicators include:

- Child health - 33% of dependent children in Hull were living in child poverty in 2020/21, compared with the England average of 18%.
- Obesity - around 66,400 people aged 16+ living in Hull are obese, while a further 81,100 are overweight. At 70%, the percentage of overweight or obese individuals in Hull was higher than England (64%). Of the 7 out of 10 Hull adults who are overweight or obese, a further 44% are also inactive. 29% of children in Reception Year during the 2017/18-2019/20 academic years, as well as 37% in Year 6, were overweight or very overweight. This was significantly higher than the England average for children in Reception Year (23%) and also significantly higher than the England average for Year 6 pupils (35%).
- Preventable mortality - the rate of preventable deaths (under the age of 75) has been two-thirds higher in Hull than in the rest of England, with rates differing markedly across the city. Of the 8,341 deaths among residents of Hull during 2019-2022, 7% were from lung cancer, 19% were from other cancers, 24% were from cardiovascular diseases and 21% were from respiratory diseases; this compares with 5%, 21%, 23% and 21% respectively for England.
- Fuel poverty - 21% of households in Hull were in fuel poverty in 2020, compared with the England average of 13%.
- Financial insecurity - in March 2022 the claimant count (those claiming Job Seekers Allowance or Universal Credit with requirement to seek work) for Hull was 8.7% among men and 6% among women; this compares with 5% and 3.6% for men and women across England. Around 1/4 of Hull's adults could not fund a £200 household emergency and 1 in 11 adults worried on a daily or weekly basis about not having enough food.
- Smoking - 1 in 5 adults in Hull smoke, smoking prevalence in Hull is 25%, higher than the England rate of 16%. An estimated 53,400 people aged 16+ in Hull are smokers.
- Mental health - The suicide rate in Hull is ranked the third highest in England. Around 21,900 people aged 16+ living in Hull are estimated to be at risk of social isolation (defined here as living alone and not speaking to family, friends, or neighbours each day). This means that approximately 10% of individuals living in Hull may be suffering from social isolation.

*Hull Health and wellbeing Strategy 2022 and Hull's JSNA 2022*);

## Housing

Hull's Housing Flows Reconciliation return for 2023 to 2024 identified a total dwelling stock (at 31<sup>st</sup> March 2024) of 124,707 dwellings within the city.

*Source: HFR return is a Department for Levelling Up, Housing and Communities and Ministry of Housing, Communities & Local Government requirement.*

The housing types within Hull's stock (2021):

- Terraced 53% (England 26%, Yorkshire & Humber 29%);
- Semi-detached homes 18% (England 24%, Yorkshire & Humber 29%);
- Flats/Maisonettes 17% (England 24%, Yorkshire & Humber 16%);
- Bungalows 7% (England 9%, Yorkshire & Humber 11%);
- Detached 5% (England 16%, Yorkshire & Humber 14%);

Tenure estimates within Hull.

- Owner occupation 49.1% (England 64.1%, Yorkshire & Humber 64.5 %);
- Private rented 23.9% (England 19.4%, Yorkshire & Humber 18.6%);
- local authority 18.9% (England 6.4%, Yorkshire & Humber 9.0 %);
- housing association 8.1% (England 10.1%, Yorkshire & Humber 7.9 %);

## Prices and Rents

- Median house price - £129,100  
Median gross annual workplace-based earnings £30,966  
Ratio of median house price to median gross annual workplace-based earnings 4.17  
(East Riding of Yorkshire 6.86, England 8.26);  
  
ONS – 2023 House price to workplace-based earnings ratio (Published March 2024)  
[House price to workplace-based earnings ratio - Office for National Statistics \(ons.gov.uk\)](https://ons.gov.uk/house-price-to-workplace-based-earnings-ratio)
- Average Local Authority Rent £77.88 a week;  
Gov.uk Live Tables on Rents: Table 702: Local Authority average weekly rents 2022 - 2023  
[Live tables on rents, lettings and tenancies - GOV.UK \(www.gov.uk\) \(2022 – 2023\)](https://www.gov.uk/live-tables-on-rents-lettings-and-tenancies)
- Average Housing Association Rent £87.85 a week;  
Gov.uk Live tables on Rents: Table 704: Private Registered Provider average weekly rents 2022 - 2023  
[Live tables on rents, lettings and tenancies - GOV.UK \(www.gov.uk\) \(2022 – 2023\)](https://www.gov.uk/live-tables-on-rents-lettings-and-tenancies)
- Average monthly Private Rents in Hull:
  - One bed: £428
  - Two bed: £532
  - Three bed: £639
  - Four bed or more: £863
  - All categories: £600

ONS Private rent and house prices September 2024: Figure 8:

[Private rent and house prices, UK - Office for National Statistics \(ons.gov.uk\)](https://ons.gov.uk/private-rent-and-house-prices-uk)

## Economy

Full time Wages in the City for residents were £484 per week, while employee average wage was £528 per week (2020), reflecting people living outside of the city but working within, earn on average more than those that reside and work within (UK average £601/Yorkshire and Humber £554 per week). Employment rates in Hull are 75.3% in comparison to the Yorkshire and Humber 74.6% and Great Britain 75.7%. Of the total of over 127,000 jobs in Hull, 73% are full time posts and 23% are part time. Self-employment level is around 12,500 people. **Median annual pay in the city** in 2020-21 was 10% below the regional and 13% below the national level at £21,677. This gap in pay over the last 10 years has remained constant.

**Gross Value Added (GVA)** (mid 2021) in Hull is estimated at £6.2 billion, around £23,786 per head, a £1.4 billion growth since 2013.

Many factors play a part in the success and growth of a local economy, including natural resources, a workforce with skills, quality of infrastructure, strong linkages with wider economies and successful distribution of wealth. Industry sectors with strong growth in Hull are the Medical, Construction and Manufacturing sectors. Among the strongest industry sectors in Hull are Medical, Manufacturing and Food Processing. Manufacturing remains one of the key sectors in the city and is above equivalent job levels at both regional and national level.

The Government recognises the importance of the renewable energy sector and has granted Enterprise Zone status in and around the Port of Hull to encourage complementary businesses and supply chain companies to locate there.

Hull Economic Strategy 2021-2026*

## English Indices of Deprivation

On 26th September 2019, the Ministry of Housing, Communities and Local Government released the English Indices of Deprivation 2019. The English Indices of Deprivation measure and rank relative levels of deprivation. Based on 39 separate indicators, organised across seven distinct domains of deprivation which are combined, using appropriate weights, to calculate the Index of Multiple Deprivation 2019 (IMD 2019); an overall measure of multiple deprivation experienced by people living in an area.

### Index of Multiple Deprivation 2019 Domain Summary:

(NB: Rank of 1 denotes Local Authority is the most deprived local authority in England (out of 317))

- Income 6th Most Deprived
- Employment 7th Most Deprived
- Crime 6th Most Deprived
- Housing and Services 167th Most Deprived
- Education and Skills 4th Most Deprived
- Living Environment 32nd Most Deprived

Health and Disability 20th Most Deprived according to the IMD 2019, Hull is ranked as the 4th most deprived local authority in England (out of 317 local authorities) under the 'Rank of Average Score' measure; having been the 3rd most deprived local authority (out of 326) in 2015.

The IMD 2019 is calculated for small geographical areas, called lower layer super output areas (LSOAs), which have an average population of around 1,500, and of which there are 32,844 across England, including 166 in Hull. An alternative measure is the proportion of small areas (LSOAs) among the most deprived 10% of LSOAs nationally. On this measure, Hull also ranks as the 4th most deprived local authority in 2019 (out of 317 local authorities), also having been the 3rd most deprived (out of 326) in 2015. Despite a very marginal improvement in relative deprivation, Hull therefore remains stubbornly rooted towards the bottom of the national table.

According to the IMD 2019, 90 of the 166 LSOAs in Hull (54%) are amongst the 20% most deprived in England; a small increase from 87 (52%) in 2015. This includes 75 LSOAs (45%) in Hull which fall within the 10% most deprived in England – exactly the same number and proportion as in 2015. Only four LSOAs in Hull in 2019 are among the 20% least deprived in England; compared with 1 LSOA in 2015. No LSOAs were amongst the 10% least deprived in Hull in either 2015 or 2019. Of the 166 LSOAs in Hull; 88 (53%) saw their national rank improve in 2019 relative to 2015; with the ranking of the remaining 78 (47%) deteriorating.

From the IMD 2019, Hull Clinical Commissioning Group (CCG) is ranked as having the 5th most deprived population out of 191 CCGs under the 'Rank of Average score' measure. It is the 4th most deprived CCG based on the proportion of small areas (LSOAs) among the most deprived 10% of LSOAs nationally. The ranking is different to the Local Authority ranking as the most deprived CCG, Bradford City, covers the more deprived parts of that local authority, i.e., CCG's may not share the same geography as a Local Authority Boundary.

*Hull City Council Public Health Sciences and Insight Team Briefing Report: English Indices of Deprivation 2019*

## Transport

Good local transport networks play a vital role in our communities, providing access to employment, health, leisure and education opportunities. Public transport, walking, cycling and the local road network are all vital to getting people, businesses and service providers moving around Hull.

Journeys to and from Hull for work are predominantly between the East Riding of Yorkshire as well as North and North East Lincolnshire. The Hull travel-to-work area has one of the highest levels of commuter self-containment in the country. This is mainly due to the fact the relative distance to Hull's nearest city neighbours and employment centres; York, is 40 miles away, and Leeds, the main economic centre of the Yorkshire region, is 60 miles away.

Our journeys can often include the use of a combination of 'local' and 'strategic' transport networks. Effective links between networks and between different transport modes and services all support the need to take a 'whole journey approach' as outlined in the Strategic Transport Plan for the North.

- **Hull is at the heart of the Humber Port** complex which is the biggest in the UK, and is also the location of one of Europe's biggest wind turbine manufacturing plants.
- **Hull acts as a gateway to Europe and the world.**
  - Daily overnight ferry services from Hull to both Rotterdam and Zeebrugge, connecting passengers to major European motorway and rail networks.
  - More than a million people and 12 million tonnes of cargo pass through the Port of Hull every year.
- **Hull is well connected by the road and rail networks.** The A63 going west connects to the M62, stretching across northern England, The M62 motorway is one of the main east-west routes in the north of England, connecting Hull to Leeds, Manchester and Liverpool and the M1. The Humber Bridge link across the estuary to Lincolnshire has more than eight million vehicles crossings annually, its links Hull to a growing economic area on the south bank of the Humber and beyond.
- **Regular passenger rail services** run south to Doncaster, Sheffield and London, west to York, Leeds and Manchester, and north to Beverley, Bridlington and Scarborough.

Source: Hull Transport Plan

## Travel to Work - Census 2021

On the Census 2021 form, people who were in employment or temporarily away from work in the week before Census Day were asked “How do you usually travel to work?”. People were asked to select one mode of transport that they used for the longest part, by distance, of their usual journey to work.

During the week leading up to Census Day, 21 March 2021, 117,789 usual residents in Hull aged 16 years and over were in employment. In total, there were an estimated 15,534 people in Hull who worked mainly at, or from, their homes. This figure was 13.2% of all usual residents aged 16 years and over in employment. This is significantly below the figure for England (31.5%) but a significant increase from 2011 when just 2,118 people in Hull (1.9%) worked mainly at, or from, their homes.

Within Hull 102,255 usual residents, aged 16 years and over, in employment (86.8%) did not work mainly at or from home. They instead specified the main mode of transport they used to reach their place of employment. It is likely that restrictions during the COVID-19 pandemic contributed to changes in the way people travelled to work, including fewer people using public transport.

In Hull, out of all usual residents aged 16 years and over in employment:

- 61,237 people travelled to work by driving a car or van (59.9% of all usual residents aged 16 years and over in employment who don't work from home)
- 9,104 million travelled as passengers in a car or van (8.9%)

	Hull (2021)	England (2021)	Hull (2011)
<b>Car (Driver or Passenger), Motorcycle or Taxi</b>	<b>72,807 (71.2%)</b>	72.4%	70,245 (64.6%)
<b>Public Transport</b>	<b>9,358 (9.2%)</b>	11.9%	15,279 (14.9%)
<b>Bicycle or Foot</b>	<b>18,845 (18.4%)</b>	14.2%	22,358 (20.6%)
<b>Other</b>	<b>1,245 (1.2%)</b>	1.5%	903 (0.8%)

- Whilst the proportion of journeys to work in Hull by motor vehicle is broadly in line with the national figure, there has been a notable increase since 2011.
- At the same time there has been a decrease in journeys by public transport, bicycle and foot.

Respondents aged 16 years and over who were in employment and stated that their main place of work was a workplace or a depot were asked for their workplace address, from which the ONS calculated the distance they travelled to work.

## OFFICIAL

In Hull, 86,068 people travelled to a workplace or depot (73.1% of usual residents aged 16 years and over in employment). In addition 15,534 people who worked mainly at or from home (13.2%), and a further 16,187 people worked mainly at an offshore installation, in no fixed place, or outside the UK (13.7%).

Of those travelling to a workplace or depot, 71,939 (83.6% of usual residents aged 16 years and over in employment and not working from home / offshore / NFA or abroad)) travelled short distances to work (less than 10 kilometres).

	<b>Hull (2021)</b>	England (2021)	Hull (2011)
<b>Less than 2km</b>	<b>17,927 (20.8%)</b>	20.3%	22,484 (23.0%)
<b>2km – 5km</b>	<b>32,635 (37.9%)</b>	23.4%	39,799 (40.8%)
<b>5km – 10km</b>	<b>21,377 (24.8%)</b>	21.7%	21,744 (23.3%)
<b>10km – 20km</b>	<b>6,446 (7.5%)</b>	19.3%	5,773 (5.9%)
<b>20km – 30km</b>	<b>2,763 (3.2%)</b>	7.4%	1,946 (2.0%)
<b>30km – 40km</b>	<b>1,549 (1.8%)</b>	3.1%	1,198 (1.2%)
<b>40km – 60km</b>	<b>1,470 (1.7%)</b>	2.4%	1,070 (1.1%)
<b>Over 60km</b>	<b>1,901 (2.2%)</b>	2.5%	3,541 (3.6%)

Source: HullICC

## Section 3 The Development plan, Neighbourhood plans and progress with the Local Plan Timetable (LPT).

### The Development Plan

- 3.1. The statutory 'Development Plan' for the city comprises several different documents as outlined below:
- **Hull Local Plan 2016 to 2032** Adopted November 2017  
(Includes the retained policies of the Holderness Road Corridor Area Action Plan - Adopted March 2011 and Newington and St Andrews Area Action Plan Adopted February 2010).
  - **Kingswood Area Action Plan** Adopted September 2016
  - **Newington Neighbourhood Plan** Adopted November 2023
  - **The Joint Minerals Local Plan** Adopted November 2019
  - **Joint Waste Local Plan** Adopted November 2014
- 3.2. The adopted **Hull Local Plan** sets out a vision and a framework for the future development of the city, addressing needs and opportunities in relation to housing, the economy, community facilities and infrastructure – as well as a basis for conserving and enhancing the natural and historic environment, mitigating and adapting to climate change, and achieving well designed places. The plan also provides development policies and allocations for the whole city. The Local Plan comprises a written statement setting out a broad range of policies and related planning priorities and a city-wide policies map.
- 3.3. The **Hull Local Plan** also contains the retained policies of the **Holderness Road Corridor (HRC) AAP** (adopted 2009) and the **Newington and St Andrews (NaSA) AAP** (adopted 2010). These AAPs were created largely to steer and provide a framework for housing market renewal activities within certain areas of the city. They were produced ahead of the Local Plan which in turn superseded and updated most parts of these plans. Some elements are retained and the Local Plan lists these within an appendix. These elements remain material considerations in determining planning applications in these areas.
- 3.4. The **Kingswood Area Action Plan (AAP)** guides the development of this major growth area of the city, setting out a clear delivery framework for some of the important infrastructure requirements as well as phasing of some of the housing development elements. The local plan reflects this AAP within its policy map, but makes clear how land supply, town centre roles etc. can be considered in relation to the city as a whole.
- 3.5. The **Hull and East Riding Joint Minerals Local Plan** was adopted November 2019 and remains up to date and is not being reviewed as part of the wider Local Plan update process. The Minerals Plan provides minerals planning policies for Hull and the East Riding and is the starting point for determining mineral and other relevant planning applications. Further details can be found online at: <https://www.eastriding.gov.uk/planning-permission-and-building-control/planning-policy-and-the-local-plan/joint-minerals-plan/>
- 3.6. The **Hull and East Riding Joint Waste Local Plan** was adopted November 2014. Both Councils are committed to working together to ensure a complimentary approach to waste planning continues to exist across the two authorities.

- 3.7. **Supplementary Planning Documents (SPDs)** expand on existing policies in the Development Plan providing guidance for how they should be implemented. The preparation of such documents follows statutory procedures and once adopted they carry weight when the Council makes decisions on planning applications. A list of **adopted SPDs** is set out in **Table 3.1**, and the Council's web site provides links to the documents as well as a 'live' position for emerging SPDs.

**Table 3.1: Supplementary Planning Documents**

SPD	SPD Title	Status
SPD1	House Extension Design	Adopted January 2019
SPD2	Heritage and Archaeology	Adopted January 2019
SPD3	Environmental Constraints	Adopted May 2019
SPD4	SUDS/Living with Water	Adopted December 2019
SPD5	City Centre Parking Strategy	Adopted October 2019.
SPD6	East Carr	Adopted September 2021
SPD7	Residential Design Guide	Adopted January 2020
SPD8	Advertisement Design	Adopted January 2019
SPD9	Vitality and viability of centres	Adopted January 2019
SPD10	Trees (Protection and Use in Development)	Adopted January 2019
SPD11	Protecting Open Space	Adopted January 2019
SPD12	Ecology and Biodiversity	Adopted February 2019
SPD13	City Centre Design Guidance	Adopted October 2019
SPD14	Healthy places, Healthy People	Adopted April 2021.
SPD15	Affordable Housing	Adopted September 2019
SPD16	Whitefriargate / Silver Street Shop Front Design Guide	Adopted June 2020
SPD17	Craven Park	First consultation complete
SPD18	Brunswick House and the Strand	Adopted June 2021
SPD19	Employment Sites	Adopted April 2022
SPD20	Houses in Multiple Occupation	Adopted September 2022

## Neighbourhood Plans

- 3.8. **Neighbourhood Plans** provide local communities with an opportunity to create a shared vision for the future development and growth of their area. Such plans need to be in broad conformity with national planning policy and with the policy established locally in the development plan. Once adopted, they become part of the wider development plan for the area. There has been some local interest in the production of neighbourhood plans in the city.
- 3.9. The Council is proactive and positive about neighbourhood planning, working collaboratively with communities where they choose to prepare a plan, and to ensure complementary neighbourhood and local plan policies are created. Further information about neighbourhood plans in the city are available on the Council's website.  
<https://www.hull.gov.uk/communities-and-living/neighbourhood-teams/neighbourhood-plans>
- Newington Neighbourhood Plan.**
- 3.10. The Newington Neighbourhood Plan was endorsed by the people of Newington at a referendum which took place on Thursday 9 November 2023.
- 3.11. The plan is now part of the statutory Development Plan.

### Local Plan Timetable (LPT)

- 3.12. The Local Plan Timetable (similar to the former local development scheme) sets out the Council's projected timetable for preparing key planning policy documents. This ensures local communities and other interested parties can understand the plan making activities that are intended to be undertaken by the Council and keep track of progress. The plan making process can be complicated and difficult to navigate for non-planners. Wherever possible non-technical language is used but where this is unavoidable the document seeks where possible to explain the meaning of it.
- 3.13. A Local Plan Timetable is required under Planning Law. This must specify matters to be dealt with in the local plan. The Act sets these out as:
- the matters which the authority's local plan for their area is to deal with,
  - the geographical area to which the authority's local plan is to relate,
  - any supplementary plans which the authority is to prepare,
  - the subject matter and geographical area, site, or sites to which each of those supplementary plans is to relate,
  - the authority propose to comply with the requirement in section 15F(1) (requirement in relation to design code),
  - a timetable for the preparation of the authority's local plan for their area, and any supplementary plans the authority are to make, which is consistent with this Part and any regulations made under it.
- 3.14. Each of these requirements is addressed through the Local Plan Timetable. Local Plan Timetable 2024 was published in April of 2024 [Local Plan Timetable \(hull.gov.uk\)](https://hull.gov.uk). The LPT considers how plan making is in a state of transition and it is drafted with a view to be updated as and when more clarity is received from Government as to how any revisions to the Plan Making system will be implemented.
- 3.15. An update will also address how Supplementary Plans will be produced when it is clearer how these could be used as a planning tool and what relationship these have to existing Supplementary Planning Documents.
- 3.16. The Council is bound to introduce a Design Code(s) for the city.<sup>2</sup> Several design guides and design related appraisals exist, and work is currently underway to understand how these could form part of a Design Code. At this stage it is not clear how this will factor into the stages of Local Plan production although the intention is for the revised Local Plan to still include an overarching design policy and that a separate strategic design framework will be produced alongside the plan. It has been made clear nationally that Design Codes could be produced within a Supplementary Plan and not therefore within the Local Plan document itself.

---

<sup>2</sup> 15F of Schedule 7 of the Levelling Up Act 2003 sets out requirements in relation to the design code. <https://www.legislation.gov.uk/ukpga/2023/55/schedule/7>

## Section 4 Policy Performances - Hull Local Plan 2016 to 2032

### The Town and Country Planning (Local Planning) (England) Regulations 2012 Authorities' monitoring reports

*34 (2) Where a local planning authority are not implementing a policy specified in a local plan, the local planning authority's monitoring report must—*

*(a) identify that policy; and*

*(b) include a statement of—*

*(i) the reasons why the local planning authority are not implementing the policy; and*

*(ii) the steps (if any) that the local planning authority intend to take to secure that the policy is implemented.*

**For Regulation 34(2) - All policies detailed within the Local Plan are implemented.**

*34 (3) Where a policy specified in a local plan specifies an annual number, or a number relating to any other period of net additional dwellings or net additional affordable dwellings in any part of the local planning authority's area, the local planning authority's monitoring report must specify the relevant number for the part of the local planning authority's area concerned—*

*(a) in the period in respect of which the report is made, and*

*(b) since the policy was first published, adopted or approved.*

These regulations are available at - <https://www.legislation.gov.uk/ukxi/2012/767/part/8>

## Monitoring of Local Plan Policies

- 3.17. The structure of the Hull Local Plan starts with provision of a portrait of Hull and sets the strategic context for the Plan. It then introduces the overall strategy for the Plan by outlining a spatial vision, a set of strategic priorities and a key diagram. **Local Plan chapters 4 to 14 are then based around key themes, these chapters contain the Policies 1 to 52.** Although each theme is dealt with separately, the document needs to be read as a whole, in order, to understand fully the spatial issues faced by the city, and the interrelationships between policies. The Local Plan monitoring table, towards the end of the plan, identifies individual policy links to strategic priorities and details identified outcomes, achievement indicators and their related targets.
- 3.18. This section of the AMR provides an update on the performance of the Local Plan's policies relative to the plan's monitoring table (Table 14.2 Pages 279 to 288). Data is provided, as appropriate and where available, for the period to which the report is made and (where required) from the adoption of the plan.
- 3.19. The Local Plan's policies were written in response to its spatial vision, strategic priorities and challenges identified within the key themes. The monitoring criteria (outcome/indicator and target) of individual policies respond in differing ways to the policy challenge of the identified key themes.
- 3.20. Some policies offer, for example, annualised targets, a percentage requirement for development to achieve or offer a development requirement shown within tables or appendices. For example, the annualised number of homes delivered or the amount (percentage) of new homes required to be built on brownfield land over the plan period.
- 3.21. Other policies express a policy intent, often measured by the nature a proposed development meeting a requirement of a policy or being constrained by the requirements of a policy. Examples of the monitoring of policy intent include ensuring a policy is observed within a planning application and if a planning appeal is successful contrary to the policy by recording those occurrences. Other examples may be where the constraint of inappropriate development is not ensured, details of occurrence and the reasoning may be provided.
- 3.22. In summary it is essential to understand the intended outcome, achievement indicators and target of policies within the local plan by referencing table 14.2 of the local plan, ensuring the local plan is read, used and monitored in a holistic way.
- 3.23. For relevant Policies, monitoring information is provided. The information provided will sit alongside the ongoing review of the Local Plan.

## Local Plan Chapter 4 Economic Growth

### Economic Growth

<p><b>Policy 1: Economic Growth</b></p>
<p><b>Future employment land requirements</b></p> <p>1. A growing and competitive city economy will be supported through the identification and maintenance of a wide portfolio of sites that can accommodate demand for development of 'B' class uses within defined market areas of the city. Designated employment areas within the city will be the focus for a range of manufacturing, research and development, warehouse and distribution uses.</p>
<p><b>Port of Hull</b></p> <p>2. Within the Port Area, as designated on the Policies Map, development proposals for port related uses will be supported to facilitate the continued operation and future growth of the Port of Hull. The major development needs associated with Green Port Hull will also be supported within the Port Area. Any proposals for new development on land in close proximity to the Port Area will be required to fully assess the potential impact of the Port on the proposed use and, where necessary, provide any mitigation as part of the new development.</p> <p>3. Within the Port Area, any proposed alteration to existing jetties and structures on the waterfront adjoining King George Dock, as shown on the Policies Map, should consider impacts on the Humber Estuary International Site in relation to birds using the structures and surrounding areas, and on the sediment flow as a result of development.</p>
<p><b><i>Future use within designated employment areas</i></b></p> <p>4. <i>Within designated employment areas and on allocated employment sites, development of uses outside classes B1, B2 and B8 will not be allowed unless:</i></p> <p><i>a. it is demonstrated that the use of the site for other than B class use would not lead to a shortfall of land available to meet identified economic development B class needs within the relevant market area of the city and it has been demonstrated that there is not reasonable prospect of the site being used for a B class purpose; or</i></p> <p><i>b. it is small-scale incidental development and it is demonstrated that this is necessary to make development of employment uses on the remaining parts of the site viable; or</i></p> <p><i>c. development is of sui-generis uses that are of an industrial nature, and that support the economic growth objectives of the plan and are compatible with surrounding uses.</i></p> <p><i>Such development will not be allowed if the proposed use would result in bad neighbour issues leading to restrictions being placed on neighbouring businesses.</i></p>
<p><b><i>Office development</i></b></p> <p>5. <i>All office development outside of centres will be subject to a sequential test to demonstrate that it cannot be better located in the city centre. Outside the city centre, office development will be supported where it is ancillary to, or there is operational need to be close to, manufacturing or warehouse and logistics businesses, or within a business park development where smaller offices can be incidental to a wider mix of employment uses.</i></p>
<p><b><i>Extension of existing properties</i></b></p> <p>6. <i>Extension, remodelling and redevelopment of properties to allow expansion of existing B1, B2 or</i></p>

*B8 businesses, or to accommodate new firms within designated employment areas will be supported, subject to detailed planning considerations.*

### **Safeguarding minerals infrastructure**

*7. Existing, planned and potential infrastructure supporting the minerals industry will be safeguarded from inappropriate development. This includes railheads, rail links, wharfage and associated storage, handling and processing facilities for the bulk transport by rail, sea or inland waterways of minerals, including recycled, secondary and marine-dredged materials, concrete batching, manufacture of coated materials, other concrete products and the handling, processing and distribution of substitute, recycled and secondary aggregate material.*

*8. Sensitive or inappropriate development that would conflict with the use of sites identified for these purposes will be prevented.*

### **Policy 2 - Employment allocations**

*1. The sites listed in Table 4.1, and shown on the Policies Map, are allocated for a range of uses within industrial and business use under Use Classes B1(b) (c) and B2 and B8 and should be developed with regard to the relevant development brief (see Table 14.3 in Chapter 14) or Local Development Order where one exists.*

*2. The sites within the Port Estate, listed in Table 4.2 and shown on the Policies Map, are allocated for uses linked to Green Port Hull or will remain in operational port use. At site 45, a bird mitigation area and 150m buffer zone should be set aside in the south eastern part of the site within which no buildings should be constructed, and details should be agreed and the area provided prior to the commencement of construction in any part of the site. On employment allocation sites 44 and 45, wind turbines should not be erected. The mitigation area and buffer zones should be retained to maintain the ecological value of the site.*

*3. Site 32 at the former Isaac Newton School, shown on the Policies Map, is allocated to provide up to 3ha for development of small-scale office/ business start-up space within Use Class B1 amongst a mixture of other uses.*

*4. Development on site 2 at Priory Park, shown on the Policies Map, will include the re-provision of 1.6ha of natural habitat that currently exists on the site to ensure that habitat of equivalent quantity and quality is maintained within the site or in its vicinity.*

*5. At Kingswood (Table 4.3), the Riverbank area will provide 7.7ha of land for industrial and business use under Use Classes B1(b) (c) and B2 and B8. The Kingswood Centre area will provide 11.5ha of land for industrial and business use under Use Classes B1(b) (c) and B2 and B8; and/ or community uses under Use Classes C2 and D1; and/ or leisure use under Use Class D2 in the area south of Raich Carter Way. Detailed allocations are made within the Kingswood Area Action Plan.*

**Conclusion**

- 4.1. The overall policy approach in the plan relating to employment growth appears to remain valid and to varying degrees is proving to be successful.
- 4.2. Whilst sufficient land has been identified to meet projected needs over the plan period, the take of up such land has been variable over the years of the plan that have happened. In some cases, employment land has been at least temporarily removed from the supply side and there is an issue that open storage uses are becoming more prevalent – although this is likely to be representative of the demand for land in some areas. There appears to be strong ongoing demand for port related employment activity.
- 4.3. Although inevitably some alternative uses have appeared in predominant employment areas, it is positive to see expansion and growth of further employment uses in such areas and the policy approach remains in most cases entirely appropriate.
- 4.4. The focus for office accommodation in the city remains positive although recent changes to the use class order may result in development interest elsewhere.

**Policy 1 Economic Growth & 2 Employment allocations**

**The geography**

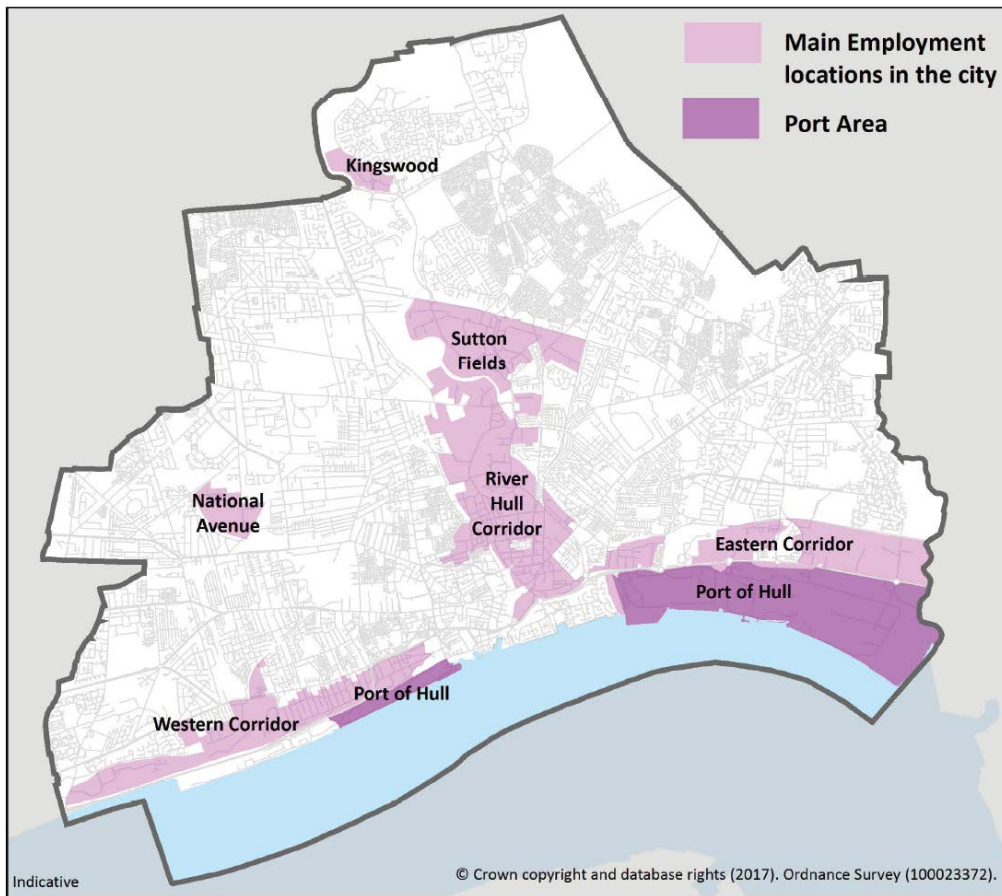

4.5. For the purposes of understanding employment land supply and development trends, the city has been divided up into broad areas / locations which partly reflect differing property markets and reflect the general use and character of those areas. There are seven such areas, namely:

- Western Corridor
- National Avenue
- Eastern Corridor
- Kingswood
- River Hull Corridor
- Ports
- Sutton Fields

4.6. As well as these areas, the city centre is a location for office development and therefore is also considered within this report.

4.7. The Port of Hull presents a distinct opportunity restricted by the more specific operational port needs and Green Port Hull, and allocations within this area are therefore linked to this.

Figure 4.1: Main employment Locations and Port Area in Hull

4.8. The adopted Local Plan allocates sites within these areas for a range of uses within industrial and business uses under the Use Classes B1(b) (C) and B2 and B8.

### **Overview of remaining supply on allocated sites**

4.9. An overview of the remaining allocated opportunities in each of the areas listed above is provided below. Site references are those used in the Local Plan.

#### **Western Corridor**

- 4.10. Development within the Priory Park Industrial Estate (Ref. 1) was held up due to need for junction improvements at the main entrance to the park. This work has now been completed, and planning applications have been submitted and determined, and development can be progressed. Three large applications have been determined and permitted since December 2022, but construction of these proposals has not yet started.
- 4.11. The former Birds Eye site (Ref. 3) remains undeveloped but was understood to have been bought by the neighbouring Atlas Leisure Homes firm to allow future relocation of operations. The site is currently used for outside storage and distribution in relation to that business.
- 4.12. Two relatively small plots remain at Wassand Street and Walcott Street, (Ref. 6) after initial developments occurred after the former use was cleared. The owner of both sites is currently seeking an end user for the sites.
- 4.13. Land had recently been cleared in the area north of the existing allocation at Neptune Street (Ref. 7). It is unclear what landowner intentions are for the wider site. It is currently operated by Seaway Logistics involved with freight forwarding and shipping. A planning application (Outline planning permission for construction of a business park for approximately 17 hybrid units - 18/00087/OUT) was submitted for the development of this site but it is still pending consideration as of 31st March 2024. The owner is seeking external storage uses in the short term with the longer-term aspiration to seek alternative uses. Currently the site is being used for the outside storage of mobile homes. This site might become part of considerations for the future of the Smith and Nephew site should it become vacant following their potential relocation out of the city.
- 4.14. Land remains at St Andrews Dock (Ref 8). This has complex issues around the future of the Lord Line Building, and other historic features including the former dock itself. There are also multiple owners. Access is currently through the St Andrews Retail Park, off the A63.

#### **River Hull Corridor**

- 4.15. The largest single opportunity within this employment area is the National Grid site on Clough Road (Ref. 14). This site has long been associated with energy production and has retained features related to gas storage and distribution. After a few years of being on the market, the site has recently been bought by Ashcourt and is now being advertised as 'Bankside Business Park' with opportunities for plots to become available for outside storage compounds or industrial/warehouse design and build, suggesting positive moves for the site to be brought forward. Part of the site now has planning permission for a change of use to open storage of caravans and lodges. The planning approval has now been implemented (Spring - 2023) but that is not to say the site cannot be redeveloped as this permission is effectively just a meantime use and does not preclude future development.
- 4.16. Another relatively large site is Land at Rix Road (Ref. 16). The site appears to be operated by Seaway Logistics as a storage/transit facility, as well as by Wasteage Ltd. There does not

appear to be a coherent use of the site other than for opportunistic storage. The shape of the site is likely to require some land assembly to make development more feasible. The proximity of a primary school that the site surrounds on three sides will influence future development options.

- 4.17. Land at Chapman Street (Ref. 18) has been cleared and levelled, and it was reported that it has been acquired for future expansion of Reckitt Benckiser which adjoins it.
- 4.18. Land at St Mark Street (Ref. 19) has now been developed and is owned and operated by Geminor UK Ltd., a specialist company who have been contracted to supply RDF to the Energy Works facility on nearby Cleveland Street.
- 4.19. Land at Oxford Street/Swann Street, Wincolmllee (Ref.10b) is partly linked to surrounding operations on opposite side of road and is dependent on several separate users as to whether it is developed comprehensively or whether it is brought forward in a piecemeal fashion. And at present there is no immediate signs of development intent.
- 4.20. Land at Dalton Street (Ref. 11b) is the former Council Depot that was to be used for processing of RDF, before this proposal moved to St Mark Street (see Ref.19 above). The site has recently been cleared of all the former depot buildings and is now owned by the Ashcourt Group. This site use and/or redevelopment and that of their adjacent site on Foster Street (Ref. 12) will depend on Ashcourt Group's future plans for the wider area that is in their ownership.
- 4.21. Land south of Foster Street (Ref. 12) was allocated in the Local Plan but remains in operational use by the Ashcourt Group and there is no clear sign it is a development site at this time.
- 4.22. A relatively long-standing site on Foster Street (Ref. 13) remains vacant. The former buildings on the site were demolished leaving the floorplates as hardstanding. Waste management activities in the immediate area may limit the attractiveness of the site.
- 4.23. Three other small, allocated sites remain, two in relatively temporary uses (Ref. 15 and Ref. 20), that doesn't preclude redevelopment, the other one (Ref. 9) has, in the last few years been part of a planning appeal where it was determined that it should be retained for employment use, with the neighbouring use suggesting expansion.

#### **Sutton Fields**

- 4.24. This purpose-built industrial estate has few allocated opportunities left. One opportunity still exists to be fully developed, Land South of Rotterdam Park (Ref. 37a and Ref. 37b). This development is phase 4 of the original planning permission for the construction of the wider Rotterdam Industrial Park and is still an allocated site. Part of the site (Ref 37a) was completed last year. The remaining plots (Ref. 37b) now have planning permission for the development of 3 buildings which will provide 12 individual commercial units (B2 and B8 uses) and construction has started.
- 4.25. The remaining 5 allocated sites are all undeveloped with no planning applications under consideration. A large, grassed piece of land is located adjacent to and within the ownership of Donaldsons (Ref. 40). It is presumed that it is retained for future expansion.
- 4.26. A similar sized site is also allocated on Land west of Stockholm Road (Ref. 39). This is currently used for car sales/delivery although this does not appear to preclude future development. A smaller site (Ref. 36) is in the ownership of JR Rix and is used for temporary storage.

- 4.27. The 2 remaining allocations (Ref. 38 and Ref. 41) are on relatively small parcels of land and so provide limited opportunity for development.

### Eastern Corridor

- 4.28. One of the most significant sites remaining available for development in the Eastern Corridor is the Kingston Parklands Business Park (Ref. 23). This is on the site of a former maternity hospital and presents a site with mature landscaping within which plots will be developed. Plots are to be released in phases as design and build opportunities. Planning permission was granted in July 2023 to allow the temporary storage (for 5 years) of mobile homes and the site is primarily being marketed for external storage.
- 4.29. Land at Keystore, Earles Road, South of Hedon Road (Ref. 22) was allocated due to its EZ status but there has been no indication of future development by the existing operator and its location and relatively small site make redevelopment of this site unlikely.
- 4.30. Only one plot remains at Burma Drive (Ref. 26) after relatively rapid development of this long-standing site, albeit with relatively low-density development some featuring large open yard components. The last remaining vacant site on Burma Drive is (Ref. 26i), 3 further plots (Ref. 26j, Ref. 26k and Ref. 26l) were completed during the past surveying year.
- 4.31. The former Holderness Road Corridor AAP made provision for approx. 9ha of employment land on Land west of Marfleet Lane (Ref. 28), a site on part of the recreation ground of Fenners factory complex. This may now depend on the wider strategy for the site, although an identified end-user is seeking to redevelop this site and the older Fenners manufacturing facility.
- 4.32. There has been a new development proposal submitted on behalf of Hallmark Group, Valletta House, Valletta Street and permission granted in September 2023 on Land off Valletta Street, Hedon Road (Ref. 30c). The proposed proposal will provide a warehouse facility, the building will be temporary, as reinforced by its type of construction, with its longevity subject to the decisions of a new planning application. The construction has not yet started.
- 4.33. A large plot of land to the west of Somerden Road, the Willerby Caravans site (Ref. 31) is currently an allocated site. However, this remains in operational use with main production buildings as well as open storage. There is not believed to be any current intent by the firm to relocate so the site does not present a development opportunity and does not form a part of supply.
- 4.34. A similar approach has been taken for land north of Wyke Works (Ref. 33) where the site was cleared, and hardstanding constructed to provide storage linked to Europa Caravans. This will not necessarily preclude future development, but in the interim, it has been taken for operational use and does not form part of supply.
- 4.35. The former Issac Newton site, Annandale Road (Ref. 32) is an allocation relating back to the wider strategy of the Holderness Road Corridor AAP. The AAP stated the site's potential for up to 3ha of land to be developed to provide for development of small-scale office/business start-up space within Use Class B1 amongst a mixture of other uses on the site.
- 4.36. A site north of Hedon Road (Ref. 34) has simply been absorbed into the wider operation of Paneltex of which it forms a part and is therefore not a development site now.

4.37. A large site located off Somerden Road (Ref. 35) is connected by a bridge across Old Fleet drain to an adjoining site within the East Riding of Yorkshire believed to be operated/owned by Rix Shipping Co, as used for timber storage. The site within Hull also appears to be used currently for residual storage of goods from the adjoining operation. Future development would therefore depend on intentions of this company.

4.38. Three other allocations are relatively small sites of land and so provide limited opportunity (Ref. 21, Ref. 24, and Ref. 27).

**National Avenue**

4.39. The remaining allocated site (Ref. 42) in the location appears to have some sort of infrastructure installed on it, possibly related to an adjoining use. It is not considered that it provides a clear development opportunity and does not form a part of supply.

**Update of Table 4.1 of the Hull Local Plan 2016 -2032**

4.40. Table 4.1 of the Local Plan lists those sites allocated for a range of uses within industrial and business uses. AMR table 4.1 updates the current position for these sites and compares how much of each site has been developed since the Hull Local Plan was adopted.

**Table x.x: Update of Table 4.1 of the Hull Local Plan 2016 -2032**

43	The Ideal Business Park, National Avenue.	0.38	0
<b>Total</b>		<b>0.7</b>	<b>0</b>
<b>Overall Total</b>		<b>107.62</b>	<b>68.17</b>

4.41. Since adoption, the amount of allocated land as outlined in table 4.1 above has reduced from 107.62 ha to 68.17 ha, a change of 39.45 ha. Some of this has been through development; other by changed circumstances which suggest land is no longer available as a development opportunity; and some through adjustments to site boundaries.

4.42. In addition, at the time of the survey one site on Sutton Fields (Ref. 37b) was under construction on 0.30 ha of allocated land.

- 4.43. An element of land has been removed from the table where it is deemed the land is no longer available for development, mainly a result of ongoing operational needs, and allowing for the planned expanded traveller site. This amounts to 13.67 ha on 5 sites.
- 4.44. The size of one allocated site has changed. Neptune Street has been expanded to include a cleared area to the north, increasing the area by 2.38 ha.
- 4.45. There have been some consequential changes to sites areas as sites have progressed where specific development schemes have refined the boundaries of original allocations. Completion figures do not therefore reconcile exactly with reductions to the areas of the original allocations.

### **Kingswood.**

- 4.46. Allocations were made through the Kingswood Area Action Plan. The largest site in Kingswood Employment Area, Land at Connaught Road, Kingswood (Ref. 14/10-6) is a site of 7.7ha in size and is allocated exclusively for employment use. This site remains vacant without planning approval for development, although a small area to south currently used for car park linked to adjoining uses.
- 4.47. The other sites are allocated for a mix of either employment, community and/or leisure use. These, Plot B - South of Ashcombe Road, Plot C - West of Barnes Way, Plot D - Connaught Road, Plot E - South of Raich Carter Way and Plot F - South of Connaught Road remain undeveloped, although permission has been granted for development of a Lidl supermarket on one site (Plot F), with continuing pressure to develop remaining land for non-employment/community use.
- 4.48. Plot A - Barnes Way had been allocated for employment and/or community uses but was granted planning permission for residential development and construction of housing development has now begun.
- 4.49. Other sites have also previously gained consent, one for parking to serve existing employment uses, and one for a community church. Neither of these have been implemented.
- 4.50. Currently it is estimated that up to 6.41 ha of mixed-use land could support employment development, when discounting completed development.

### **City Centre.**

- 4.51. Two specific schemes with an element of office floorspace have been proposed on allocated sites in the city centre, giving more clarity of where such use will come forward. The most significant is at Albion Square (Ref. M1) which will include 3,548 sqm of grade A space. The permitted permission for this major city centre regeneration has seen an evolution of plans, resulting in this latest proposal. However, this planning permission is unlikely to proceed as the construction of Community Diagnostic Centre (for Humber Teaching Hospital Trust) has been begun on part of the site and the wider Albion Square development scheme will have to evolve again.
- 4.52. The second development scheme on Land to the north of Castle Street and south-east of Waterhouse Lane (Ref. 2Mb) which includes 259 sqm of office space, is now under construction.

- 4.53. Other mixed-use allocations, while referring to potential office development, do so in the context of potential for a range of other main town centre uses. Therefore, it is difficult to quantify what future office development could be on these sites, and it will be more helpful to monitor and review supply as it comes forward. Offices represent a main town centre use that will continue to be encouraged within the city centre.
- 4.54. While there have been significant losses of older office accommodation in the centre, particularly to housing, recent development has demonstrated a continuing demand for modern Grade A office accommodation. The move to more flexible working in terms of location will clearly impact on future demand, reinforcing the need to monitor and review supply needs.
- 4.55. Although not allocated due to commitment and progress at the time of adoption of the plan, 31 – 38 At the Dock, Queen Street has also provided 5,763 sqm of office space within the plan period (3,916 sqm complete in 2017 and a second phase of 1,847sqm complete in 2021). This includes some space specifically designed for flexible working. The final phase of this development (Block B, providing 2,750 sqm of office space) is now complete and in use.

### **Port of Hull**

- 4.56. The ports operate within their own regime of permitted development rights. Two allocations of 48.5 ha in total, were made at Queen Elisabeth dock for a specific range of uses, with a general intention to support 'Green Port' Hull and renewable energy development. These remain available but their future use is subject to approval from the owners of the sites, ABP.
- 4.57. An LDO was also prepared for sites in the Port Area that could support development. This included the allocated sites, but also what has become the Siemens wind turbine manufacturing plant on Alexandra Dock. The LDO set out a maximum floorspace that could be developed in this location and recent Reserved Matters scheme has been granted permission taking what remained of this to develop a major expansion to the Siemens operation.

### **Overview of position of non-allocated sites within designated employment areas.**

- 4.58. In addition to the opportunities identified on land allocated for employment use in the Local Plan, many planning proposals for new employment use come forward within the wider employment areas in the city. These are identified through submission of planning applications. These applications include permissions for the expansion of operations within businesses existing site boundaries, construction of new buildings, or redevelopment of existing buildings. They also include development of 'new' sites, following demolition or clearance of previous uses.
- 4.59. Existing buildings can be subject to change of use. This does not always involve changes in floorspace but can be important where this is facilitating growth of companies or accommodating new or relocating companies. It is therefore an indicator of demand for space. It can also demonstrate demand for other uses within industrial areas.
- 4.60. Such schemes are generally represented by floorspace rather than site area, as a large proportion take place within existing sites or through change of use, so there is not a clearly defined and measurable site.

**In summary:**

- Currently 9,050 sqm of B and E(g) use floorspace (on 17 non-allocated sites) have extant planning permission for development. As well as these schemes, an additional 630 sqm of E(g) use floorspace located in a non-designated employment area has extant planning permission.
- Along with these employment development opportunities another 2 proposals involving the loss of 1,480 sqm of B use floorspace have also been permitted.
- At the time of the 2024 survey 339 sqm of E(g)(i) office floorspace was under construction on 2 sites. However, 3 schemes for the change of use of vacant offices to apartments (a loss of - 853 sqm B1(a) use floorspace) was also underway.
- In this year's survey period 33,164 sqm has been developed for employment uses on 20 individual sites.
- This includes 2,750 sqm office space developed, 2,403 sqm for research and development (now Use Class E(g) (ii), 8,491 sqm developed for general industrial use and 17,653 sqm has been developed for storage or distribution.
- Notable developments this year include large extensions to existing warehouses at the Isg Boiler Holdings Limited site on National Avenue, which has seen over 13,000 sqm developed to provide additional warehousing facilities; the completion of a three storey office building office at The Dock at Queen's Street; the change of use from a go-karting facility to a warehouse and distribution facility at Stockholm Road and nearly 4,000 sqm developed for a fully enclosed non-hazardous/Commercial and Industrial (C&I) waste processing and refuse derived fuel (RDF) production facility by Geminor UK Ltd. at their site at St Marks Street.

**In the period 2016 -2024:**

- 67,905 sqm of B and E(g) use floorspace that has been completed on 31 allocated sites (this figure rises to 72,987 on 32 allocated sites when the city centre figures are counted in the overall figure).
- This compares to the figure of 105,557 sqm of B and E(g) use floorspace has been completed on 112 non-allocated sites (this figure rises to 125,403 sqm on 122 sites when the city centre figures are counted in the overall figure).
- -18,598 sqm of previously employment use floorspace on 27 sites (on both allocated and non-allocated land) has been lost to non-B or E(g) uses in this time period. A very small amount (279 sqm) has been developed for other than B use as part of a wider scheme on 1 site.

It is very clear therefore that whilst there is a need to identify a range of allocated sites to meet employment development needs, the approach adopted in the plan of supporting employment growth in existing designated employment areas is also of great significance.

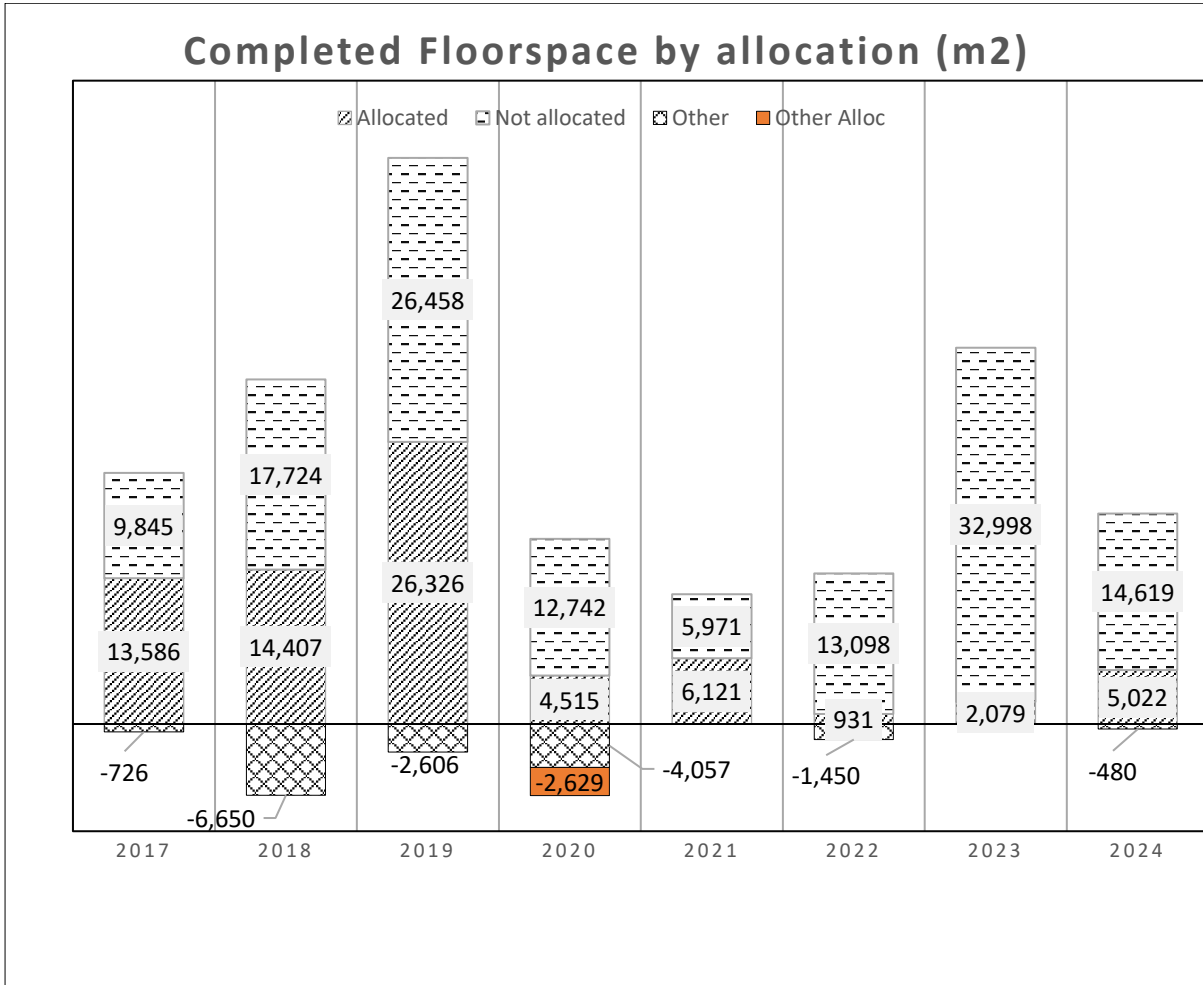

Figure 4.2 (b): Graphs of development trends since 2016.

## Local Plan Chapter 5 - Housing

### Housing requirement and delivery.

<b>Policy 3 - Housing requirement and site allocations -</b>
<p><b>Housing requirement</b></p> <p>1. The housing requirement for Hull is a minimum of 9,920 (net) new homes during the period 2016 to 2032 (620 dwellings per year).</p> <p>2. The overall delivery of housing in Hull and the East Riding will be monitored to ensure that needs are being met across the two local authority areas.</p>
<p><b>Housing site allocations</b></p> <p>3. Sites are allocated to accommodate around 11,700 dwellings to provide flexibility and choice in land for housing development.</p> <p>4. The sites listed in Tables 5.7 - 5.10, 5.12 and 5.13, and shown on the Policies Map, are allocated for housing development.</p> <p>5. The sites listed in Table 5.11, and shown on the Policies Map, are allocated for housing development in the Kingswood Area Action Plan.</p> <p>6. Housing allocations should be developed with regard to the relevant development brief where one exists - as listed in Table 14.3 in Chapter 14.</p>
<p><b>Housing site allocations</b></p> <p>7. The Council will ensure that a minimum 5-year supply of deliverable housing sites is available in Hull.</p>

- 4.61. The net housing requirement in the Hull Local Plan 2016 to 2032 is 9,920 new homes, an annual net requirement of 620 new homes per annum.
- 4.62. Taking account of net housing delivery for the period 2016 to 2024, the residual Local Plan net housing requirement for the period 2024 to 2032 is 4,115 homes equating to around 514 new dwellings per annum.
- 4.63. Following a plan review, a Local Plan update has been established, details of which are published within the Council’s Local Planning Timetable (LPT) April 2024. The Local Plan timetable is an update to previously published Local Development Schemes (LDS). The Local Plan update will, amongst other stages, require an examination of the current level of housing need and requirement.
- 4.64. NPPF paragraph 61 includes reference, to determine the minimum number of homes needed, strategic policies should be informed by a local housing need assessment, conducted using the standard method in national planning guidance. The outcome of the standard method is an advisory starting-point for establishing a housing requirement for the area.
- 4.65. The standard method uses a formula to identify the minimum number of homes expected to be planned for, in a way which addresses projected household growth and any historic under-supply.
- 4.66. The Government standard method for addressing local housing need for Hull in 2024 returns a net housing need figure of 536 new dwellings per annum. Please note this figure fluctuates annually.

- 4.67. When calculating the five-year housing supply requirement, the NPPF only requires a buffer to be applied to a housing requirement where there has been significant under delivery of housing over the previous 3 years. This will be measured against the Housing Delivery Test, where this indicates that delivery was below 85% of the housing requirement. The buffer would be 20% when applicable. No alternate buffers are applicable.
- 4.68. Housing delivery for the period 2023 to 2024 was 537 net new dwellings (543 dwellings gross).
- 4.69. For the period 2016 to 2024 delivery of net new homes, on average, has surpassed the annual Hull Local Plan’s net housing requirement. Net housing completions over the 8-year period 2016 to 2024 are around 17% above the Local Plans net housing requirement figure for the period. The net addition of homes takes account of any demolition of homes and any losses from change of use or conversion. Net and gross housing delivery is shown in Table 4.2.
- 4.70. Housing delivery has reduced from its peak periods prior to the Covid19 pandemic, recent inflationary pressures, viability and volatility within the rates and availability of mortgages has impacted the levels of delivery of homes in Hull.
- 4.71. The 5-year supply position also remains positive with a current supply of 7.11 years of deliverable housing.

**Table 4.2: Additional dwellings April 2016 to March 2024**

Year	a. Gross new build completions	b. Gross change of use to dwellings and conversion to dwellings	c. Gross Additions (a+b)	d. Gross change of use from dwellings and conversion from dwellings	e. Demolitions	f. Net Additions (d-e-f)

**Housing Delivery Test**

- 4.72. The Housing Delivery Test is a government annual measurement of housing delivery. The Housing Delivery Test results are currently published annually by the Department for Levelling Up, Housing & Communities.
- 4.73. The first Housing Delivery Test (HDT) 2018 was published in February 2019. The latest HDT 2022 was published 19th December 2023. The 2022 results represent the housing delivery and housing requirement figures for the three-year period April 2019 to March 2022.
- 4.74. The Housing Delivery Test is a percentage measurement of the number of net homes delivered against the number of homes required, as set out in the relevant strategic policies for an area covered by the Housing Delivery Test, over a rolling three-year period. Housing Delivery Test results are shown in Table 4.5. The number of homes required for some HDT component years have been adjusted for impacts of the Covid19 Pandemic on delivery. The years impacted by the pandemic will apply over multiple HDT result years. Greater details of this adjustment can be accessed at the links below.

$$\text{Housing Delivery Test (\%)} = \frac{\text{Total net homes delivered over 3-year period}}{\text{Total number of homes required over 3-year period}}$$

**Table 4.5: Housing Delivery Test Results 2018 to 2022**

<b>Housing Delivery Test</b>	<b>Total net Homes delivered</b>		<b>Homes required</b>	
<i>Housing Delivery Test Year 2018 - 165 %</i>	<i>Total net Homes delivered (2015 to 2018)</i>	2,514	<i>Homes required (2015 to 2018)</i>	1,523
<i>Housing Delivery Test Year 2019 - 194 %</i>	<i>Total net Homes delivered (2016 to 2019)</i>	2,649	<i>Homes required (2016 to 2019)</i>	1,362
<i>Housing Delivery Test Year 2020 – 241 %</i>	<i>Total net Homes delivered (2017 to 2020)</i>	2,819	<i>Homes required (2017 to 2020)</i>	1,172
<i>Housing Delivery Test Year 2021 – 198 %</i>	<i>Total net Homes delivered (2018 to 2021)</i>	2,059	<i>Homes required (2018 to 2021)</i>	1,039
<i>Housing Delivery Test Year 2022 – 195 %</i>	<i>Total net Homes delivered (2019 to 2022)</i>	2,002	<i>Homes required (2019 to 2022)</i>	1,025

Including how it is measured can be found at the following link: <https://www.gov.uk/government/publications/housing-delivery-test-measurement-rule-book>

## Housing Supply

- 4.75. The NPPF states that the purpose of the planning system is to contribute to the achievement of sustainable development; this includes supporting the Government's objective of significantly boosting the supply of homes. It is important that a sufficient amount and variety of housing land can come forward where it is needed and that the needs of groups with specific housing requirements are addressed.
- 4.76. Where appropriate local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their housing requirement. Local Plan Policy 3 (7) identifies the Council will ensure that a minimum 5-year supply of deliverable housing sites is available in Hull. Hull's five-year supply was detailed in the adopted Hull Local Plan 2016 to 2032 and the 2024 SHLAA has updated this. The SHLAA 2024 identified 7.11 years of deliverable housing supply (five-year supply) see Table 4.6.
- 4.77. The Hull Local Plan 2016 to 2032 contains a trajectory illustrating the expected rate of housing delivery over the plan period. An updated projected housing trajectory is shown in Figure 4.2. This shows for the period 2016 to 2024 net housing delivery has surpassed the housing requirement identified within the Local Plan. For the period 2023 to 2024 net delivery of housing met the net level of housing identified within the Standard Method.
- 4.78. Within the Local Plan, plan period, the period 2017 to 2018 shows over 1,300 net new homes were delivered (over 1,500 homes gross), this period was somewhat of an anomaly, it included the completion of key council extra care housing projects.
- 4.79. The updated housing trajectory, Figure 4.2, projects housing delivery above the levels of the annualised residual Local Plan housing requirement over the remaining years of the current plan and meeting the minimum net local housing need figure established using the Government's Standard Method over the next five years.
- 4.80. The 2023 calculation of net local housing need figure using the Government's Standard Method is a requirement of 536 net new dwellings per annum.

Table 4.6: Five-year supply 2024-2029 as at 1<sup>st</sup> April 2024

Five-year supply 2024-2029 as at 1 <sup>st</sup> April 2022		
a	<p><b>Net Housing Requirement, in Dwellings, 2016 to 2032 (16 years)</b></p> <p><i>The housing requirement identified in the Hull Local Plan 2016 to 2032. Shown underlined.</i></p> <p><i>The remaining Local Plan net housing requirement (9,920 – 5,805)</i></p>	<p><u>9,920</u></p> <p>4,115 (8 Years)</p>
b	<p><b>Annual Housing Requirement (a / 16 years)</b></p> <p><i>The annual housing requirement identified in the Hull Local Plan 2016 to 2032 is 620 dwellings per annum.</i></p> <p><i>The remaining net housing requirement for the period 2024 to 2032 (8 years) is (4,115/8 years) 515 dwellings per annum.</i></p> <p><b>The Standard Method (2023) for calculating Housing Need returns a net identified housing need of 536 Dwellings Per Annum (DPA).</b></p>	<p><b>536</b></p>
c	<p><b>Five-year Housing Requirement (b * 5)</b></p> <p><i>The annual housing requirement identified in the Hull Local Plan 2016 to 2032 for a period of five years. This figure has been superseded by the Standard Method for calculating Housing Need: 536 x 5 years.</i></p>	<p>2,680</p>
d	<p><b>Under-supply within plan period</b></p> <p><i>Any level of under-supply identified within the plan period will be added to the five-year housing requirement. The level of under-supply will be monitored within the annual Authority Monitoring Report. Due to the age of the current Local Plan, the housing requirement figure has been superseded by the Standard Method of Housing Need calculation.</i></p>	<p>0</p>
e	<p><b>A percentage buffer of the five year Housing Requirement to provide a realistic prospect of achieving the planned supply and to ensure choice and competition in the market for land ((c+d) x 5% buffer).</b></p> <p><i>Please note current guidance indicates local planning authorities should add a 20% buffer where delivery of housing taken as a whole over the previous 3 years has fallen below 85% of the housing requirement figure, as set out in the last published Housing Delivery Test results. Please note most recent HDT result for Hull (2022) was 195% - Buffer not required.</i></p>	<p>0</p>
f	<p><b>Five-year housing requirement including any under-supply and buffer (c+d+e).</b></p>	<p>2,680</p>
g	<p><b>Five-year supply (including Local Plan windfall: 50 dwellings per annum)</b></p> <p><i>Hull City Council updates and publishes annually its Strategic Housing Land Availability Assessment (SHLAA). The SHLAA identifies the five-year supply of housing sites that are suitable, available and deliverable.</i></p>	<p>3,815</p>
h	<p><b>Five-year supply ((g/f) * 5)</b></p> <p><i>Five-year supply expressed in years.</i></p>	<p><b>7.11</b></p>

**Housing delivery on Allocated Housing Sites**

- 4.81. The Hull Local Plan 2016 to 2032 Policy 3 Housing Requirement and Site Allocations Part 4 lists all sites allocated for housing shown on the policies map (Local Plan Table 5.7 to 5.10, 5.12 to 5.13). Part 5 details those housing allocations detailed in the Kingswood Area Action Plan (Local Plan Table 5.11).
- 4.82. The tables below detail the housing delivery progress of housing allocations and mixed-use allocations within the Hull Local Plan and Kingswood Area Action Plan. The allocations shown are those completed and those with planning permission and/or under construction.

**Windfall small sites historic delivery**

4.83. The NPPF defines windfall sites as sites not specifically identified in the development plan.

4.84. Housing delivery on small sites, for the period 2008 to 2024, was 772 dwellings (see Table 4.7). For the local plan period 2016 to 2024 around 46 dwellings per annum have been delivered. The council currently considers that it remains realistic to assume that a supply of housing will continue to come forward from small windfall sites (less than 5 dwellings).

4.85. Table 4.8 details delivery of housing for all windfall sites both large and small.

**Table 4.7: Small sites historic windfall delivery 2008 to 2022 (14 years).**

Year	New Build	Conversion	Change of Use	Totals	Greenfield land	Previously developed land

**Summary of housing completions within the development plan**

4.86. Gross housing completions within Hull’s Development Plan housing allocations accounted for 76.5% of housing delivery (see Table 4.8) for the period 2016 to 2024. The remaining housing delivery, around 23.5%, was provided through windfall housing sites, both small and large.

**Table 4.8: Housing Completions within Hull Local Plan Housing Allocations**

**Demolition.**

4.87. Details of demolition are shown in Table 4.4.

**Housing on brownfield land (Percentage of housing on brownfield land)**

4.88. Developing previously developed ('brownfield') land in preference to 'greenfield' is a more efficient and sustainable use of land. The NPPF encourages re-using brownfield land and allows local authorities to set a target. The Hull Local Plan identified that over the plan period, at least 60% of new housing should be built on brownfield sites, Policy 4(6).

<b>Policy 4 Housing regeneration and brownfield land</b>
<p><b>Housing regeneration</b></p> <p>1. The areas listed below, and shown on the Policies Map, are identified as priority areas for housing regeneration:</p> <p>a. Newington &amp; St Andrew's</p> <p>b. Holderness Road Corridor</p> <p>c. North Bransholme</p> <p>d. Orchard Park</p>
<p>2. Housing demolitions will be recorded in the Authority Monitoring Report and the housing requirement will be adjusted accordingly.</p>
<p>3. Where housing stock is to be renovated, improvements to frontages and/ or boundaries will be supported.</p> <p>4. The Council will continue to review the need to regenerate other areas and identify specific interventions and funding opportunities.</p>
<p><b>Housing on brownfield land</b></p> <p>6. Over the plan period, at least 60% of new housing should be built on brownfield sites.</p> <p>7. The Council will maintain a register of brownfield sites suitable for housing and update it annually.</p> <p>8. Where appropriate, brownfield sites suitable for housing and on the brownfield land register will be granted 'permission in principle'.</p>

4.89. Previously developed Land (Brownfield) housing delivery for the period, see table 4.9:

- April 2023 to March 2024,  
73.85% of new dwellings were delivered on previously developed land (PDL);
- April 2016 to March 2024,  
65.4% of new dwellings were delivered on previously developed land (PDL).

4.90. It is important to note that the brownfield target applies to the whole plan period. Over the plan period since adoption, performance to date has exceeded the target.

**Table 4.9: Housing on brownfield land (PDL)**

Year	Gross dwellings delivered on PDL (Brownfield)	Gross dwellings delivered on non PDL (Greenfield)	Gross total dwellings delivered	Percentage of gross dwellings delivered on PDL (Brownfield)
2016 to 2017	398	416	814	48.9%
2017 to 2018	1,202	304	1,506	79.8%
2018 to 2019	558	360	918	60.8%
2019 to 2020	707	308	1,015	69.7%
2020 to 2021	358	252	610	58.7%
2021 to 2022	312	324	636	49.1%
2022 to 2023	431	204	635	67.9%
2023 to 2024	401	142	543	73.85%
2016 to 2024	4,367	2,310	6,677	65.40%

Source: HCC

**Type and mix of housing.**

4.91. Adoption of the Hull Local Plan sought to provide a more aspirational and balanced housing offer to encourage people to live in the city. The Local Plan 2016 to 2032 identified a recommended mix of house sizes in terms of the number of bedrooms, for elements of both market and affordable housing.

<b>Local Plan Policy 5 Type and mix of housing</b>
<p><b>Size of homes</b></p> <p>1. housing development should contribute to re-balancing the housing stock in Hull in the following ways:</p> <ul style="list-style-type: none"> <li>a) at least 70% of new affordable housing should contain no more than 2 bedrooms (See table18);</li> <li>b) on sites of 100 or more dwellings outside the city centre, at least 60% of new market housing should contain 3 or more bedrooms. (See table 17)</li> </ul>
<p><b>Affordable housing</b></p> <p>2. Market housing development should contribute towards the supply of affordable housing at the following levels, unless a detailed assessment of viability is provided by the developer and demonstrates that a reduced level of provision is justified:</p> <ul style="list-style-type: none"> <li>a. in Housing Market Value Zones 1, 2, 3 and 4, 10% on sites of 15 or more dwellings;</li> <li>b. in Housing Market Value Zone 5, 15% on sites of 11 or more dwellings.</li> </ul> <p>3. Affordable housing should be provided on-site and fully integrated into the development.</p> <p>4. In exceptional circumstances, where on-site provision is not suitable or feasible, off-site provision or payment in lieu will be accepted.</p>
<p><b>Custom and self-build housing</b></p> <p>5. <i>Development of custom and self-build housing will be supported where demand has been established.</i></p> <p>6. <i>The Council will seek to identify appropriate sites to meet the demand for custom and self-build housing, or may require housing development to provide a proportion of suitable plots for custom and self-build housing.</i></p>
<p><b>Specialist housing</b></p> <p>7. Development of specialist housing for older persons, people with disabilities, and other vulnerable people, will be supported.</p> <p>8. Specialist housing should be located and designed with particular regard to:</p> <ul style="list-style-type: none"> <li>a. access to services and facilities;</li> <li>b. access to public transport;</li> <li>c. the impact of flood risk; and</li> <li>d. the needs of the intended residents, in particular their safety.</li> </ul>

4.92. Monitoring of Local Plan Policy 5 (1) recommending mix of house size is detailed within Table 4.10 and Table 4.11.

4.93. In conclusion the size of new affordable and market housing approved in the recording period is in general compliance with the requirements of Policy 5 (1). The provision of affordable housing has reflected the requirements of providers, in some locations the mix of homes has had a greater percentage of 3-bedroom homes etc., a response to a identified need for affordable homes required by families across Hull. This has generally been the case over the plan period to date.

**Table 4.10: Policy 5 (1) a - Percentage of sites gaining permission where *at least 70% of new affordable housing contains no more than 2 bedrooms* for the period 2016 to 2024.**

Period	Sites gaining permission where <i>at least 70% of new affordable housing contains no more than 2 bedrooms</i>
2016 to 2017	Policy not applicable - Local Plan Adoption November 2017
2017 to 2018	All applicable permissioned sites were in compliance with policy 5 (1) a. (Local Plan Adoption November 2017)
2018 to 2019	<p>All applicable permissioned sites were in compliance with policy 5 (1) a                      Except: - Application 18/01009/RES. Salthouse Road. The erection of 108 houses following outline consent 13/01216/OUT.                      This application was approved with eleven affordable homes, five two-bedroom dwellings and six 3 bedrooms plus dwellings.                      Overall, the policy intent of 70% of new affordable housing containing no more than 2 bedrooms across the years permissions was maintained.</p>
2019 to 2020	All applicable permissioned sites were in compliance with policy 5 (1) a
2020 to 2021	<p>All applicable permissioned sites were in compliance with policy 5 (1) a -                      Except: - 20/00566/FULL. Preston Road – This application meets the level of affordable housing required but with 36% of the affordable housing containing no more than 2 bedrooms.                      Overall, the policy intent of 70% of new affordable housing containing no more than 2 bedrooms across the years permissions was maintained.</p>
2021 to 2022	All applicable permissioned sites were in compliance with policy 5 (1) a
2022 to 2023	<p>All applicable permissioned sites were in compliance with policy 5 (1) a -                      Except: - 22/00330/FULL 19-21 James Reckitt Avenue. This application was approved with 3 affordable homes of which one was a 3 bedroom and two were 2 bedrooms.                      Overall, the policy intent of 70% of new affordable housing gaining permission containing no more than 2 bedrooms across the years permissions was maintained.</p>
2023 to 2024	<p>All applicable permissioned sites were in compliance with policy 5 (1) a -                      Except: - 22/01283/RES Land South Of Preston Road, this application was approved with 17 affordable homes of which 7 were 3 bedroom and 10 were 2 bedrooms.                      23/03013/FULL Land At Hollywell Close this application was approved with 8 affordable homes of which all 8 were 3 bedroom.                      23/03012/FULL Land To North Of Hopewell Road this application was approved with 10 affordable homes of which 4 were 3 bedroom and 6 were 2 bedrooms.                      23/02991/FULL Wyton Grove/Ryehill Grove/Exeter Grove this application was approved with 65 affordable homes of which 31 were 2 bedrooms.</p>
<p>Note: for 2018-19 - this is based on the planning permissions approved in the specified period for housing development where <i>at least 70% of the new affordable housing contains no more than 2 bedrooms</i>.                      Policy not applicable prior to Hull Local Plan Adoption November 2017</p>

**Gross affordable housing completions.**

- 4.94. Annually the delivery of new homes is monitored on a site-by-site basis. Gross completions that are detailed as affordable homes within planning permissions, their associated drawings and legal agreements are recorded accordingly.
- 4.95. The annual delivery of gross affordable homes is detailed in table 4.12
- 4.96. In the reporting year, 71 affordable homes were delivered across the city, around 13% of gross housing delivery.
- 4.97. For the period 2016 to 2024, 1,638 affordable homes were delivered across the city, 24.53% of gross housing delivery.

**Table 4.12: Gross affordable home delivery 2016 to 2024**

Year	Gross Housing Completions	Gross Affordable Homes completed on site	Gross Affordable Extra Care Homes	Percentage of Gross Delivery being Affordable Homes
2016 to 2017	814	158	0	19.41%

**Self-Build and Custom Housebuilding.**

- 4.98. The Self-build and Custom Housebuilding Act 2015 requires each relevant local authority to keep a register of individuals and groups who are seeking to acquire serviced plots of land in the authority’s area for their own self-build and custom housebuilding. Since 2016, the Government has collected information from relevant local authorities in England on self-build and custom housebuilding activity in their areas.
- 4.99. Table 4.13 represents the extract of the data for Hull 2021 to 2022 - Self-build and custom housebuilding data: 2016 to 2021-22 (Published 31 March 2023) held online at [https://assets.publishing.service.gov.uk/media/6426d9f9fbe620000f17da61/Right to Build Registers Monitoring 2016-2022 Final .ods](https://assets.publishing.service.gov.uk/media/6426d9f9fbe620000f17da61/Right_to_Build_Registers_Monitoring_2016-2022_Final_.ods)

**Table 4.13: Right to Build Register Monitoring - 31 October 2022 and 30 October 2023**

<b>Right to Build Register Monitoring 31 October 2022 and 30 October 2023.</b>			
1a. Covering the eighth base period (31 October 2022 to 30 October 2023) for individuals.			
Total at start of period (31 October 2022)	Entries added during period	Entries removed during period	Total at end of period (30 October 2023)
16	0	0	16
1b. covering the eighth base period (31 October 2022 to 30 October 2023) for groups.			
Total at start of period (31 October 2022)	Entries added during period	Entries removed during period	Total at end of period (30 October 2023)
0	0	0	0
2. Have you introduced a local connection test?			No
3. How many planning permissions for serviced plots suitable for self and custom build have been granted between 31 October 2022 and 30 October 2023?			0
4. Have you introduced a financial viability test?			No
5. Have you introduced a charge for entry onto the register?			No
6. Beyond the minimum requirement of holding a webpage, what is your local authority actively doing to publicise your self and custom build register?			None
7. Are you proactively communicating self-build and custom housebuilding opportunities to the people on your register?			No
8. Further to your duty to have regard to the the self and custom build legislation when undertaking your housing, planning and regeneration functions, have you done any of the following:			
8(a). Local Plan policy - included general support for custom and self-build?			Adopted
8(b). Local Plan policy - promoted custom and self-build as part of housing mix policy?			Adopted
8(c). Local Plan policy - adopted a percentage policy for self and custom build at larger sites?			No
8(d). Introduced supplementary planning policies/guidance?			No
8(e). Introduced consideration as part of land allocations, disposals and acquisitions?			No
8(f). Specifically supported identified projects?			No
8(g). Taken action through Housing Strategy?			No
8(h). Adopted Neighbourhood Plans which incorporate policies on self and custom build?			No
8(i) Please provide further details of the above or any other supporting information.			N/A
9. Please use the notes box below to supply us with any additional comments on the operation of the self and custom build legislation that you think might be helpful for us to read.			None

**Specialist housing. (Number of units of specialist housing).**

4.100. Specialist housing provides for people with specific housing needs, particularly in relation to impaired physical and mental health, and old age. The need for specialist housing in Hull is likely to increase over the Local Plan period as there is an ageing population and relatively high levels of poor health. Residents in specialist housing are likely to need ease of access to services and facilities such as shops, buses, health, and social care. Flood risk is a particular issue in locating and designing accommodation for vulnerable people. Specialist housing should be designed with particular regard to the needs of intended residents.

4.101. Completion of specialist housing in 2017 to 2018 included key projects in the extra care home sector situated in three strategic locations (see also Table 4.14):

- Harrison Park – Orchard Park;
- Cecil Gardens – Hawthorn Avenue; and
- Redwood Glades - Leads Road.

4.102. This extra care provision was within C3 use class and contributed to Local Plan housing requirement.

**Table 4.14: Extra Care Provision.**

Housing Allocation Reference	Address	Local Plan Table	Completed	2017 to 2018 2 Bed Extra Care
44	Cecil Gardens, Hawthorn Avenue (Newington and St Andrew’s Area Action Plan housing allocations.)	5.9	Yes	95
928	Harrison Park, Hall Road, Orchard Park (Other West Hull housing allocations)	5.12	Yes	65
875	Redwood Glades, Leads Road (Other East Hull housing allocations)	5.13	Yes	156

**Housing space standards.**

<b>Policy 6 Housing space standards</b>
<p>1. In Housing Market Value Zone 1, housing development is not required to meet the national minimum space standards.</p> <p>2. In Housing Market Value Zone 2, housing development should meet the national minimum internal space standards, unless a detailed assessment of viability is provided by the developer and demonstrates that it is not viable to meet these standards.</p> <p>3. In Housing Market Value Zones 3, 4 and 5, housing development should meet the national minimum internal space standards.</p>
<p>4. <i>Conversion of a dwelling house into self-contained flats will only be allowed if the property has a minimum internal floorspace of at least 110m<sup>2</sup> before conversion.</i></p>

4.103. Research has found the UK to have the smallest average dwelling sizes in Europe. The Government recognises that this is an issue and has introduced nationally described space standards to help bring consistency across the country; the nationally described space standards are included within the Hull Local Plan, Policy 6.

4.104. New homes within Housing Market Value Zone 1 are not required to meet the nationally described space standards. The target within Policy 6 is for 100% of new dwellings given planning permission within zones 2, 3, 4 and 5 to be compliant with the nationally described space standards.

4.105. For the period of the local plan, April 2016 to March 2024, Table 4.15 identifies the percentage of planning permissions for new dwellings subject to and compliant with Policy 6 of the Hull Local Plan.

**Table 4.15: Planning permissions for new dwellings both subject to and compliant with Local Plan Policy 6**

<b>Year</b>	<b>Dwellings granted planning permission subject to Policy 6</b>	<b>Percentage of dwellings subject to and compliant with Policy 6</b>
2016 to 2017	N/A	N/A
2017 to 2018	219	51.1 %
2018 to 2019	201	71.6 %
2019 to 2020	516	70.5%
2020 to 2021	665	84.2%
2021 to 2022	1,186	96.7%
2022 to 2023	469	94.9%
2023 to 2024	327	99.6%
Policy applicable after Hull Local Plan Adoption 23 <sup>rd</sup> November 2017. New homes within Housing Market Value Zone 1 may not be required to meet the nationally described space standards.		

**Houses in multiple occupation (HMO)**

<b>Policy 7 Houses in multiple occupation</b>
<p>1. Conversion of a dwelling house into a house in multiple occupation (HMO) for 7 or more unrelated people will only be allowed if the property has a minimum internal floorspace of at least 150m<sup>2</sup> before conversion.</p> <p>2. Conversion of a property into a house in multiple occupation (HMO) will not be allowed if it would:</p> <p>a. result in a concentration of similar uses adversely affecting local amenity and the character of the area;</p> <p>b. introduce a potential source of noise and disturbance greater than that normally associated with a dwelling to the detriment of neighbouring residential amenity, which could not be mitigated by careful planning of room layout and the use of sound insulation; or</p> <p>c. create unacceptable parking problems to the detriment of local amenity.</p>
<p>3. An Article 4 Direction requiring planning permission for small HMOs for between 3 and 6 unrelated people, and/ or a limit on the number of HMOs allowed, will be introduced in areas of the city where family housing needs to be protected or a specific need for such measures can be evidenced.</p>
<p>4. Where an Article 4 Direction exists for small HMOs, and if the concentration of HMOs and flats exceeds 50% in a specific street, then further HMOs will not be allowed, with the exception of streets within the University Quarter as shown on the Policies Map.</p> <p>5. Houses in multiple occupation (HMOs) should meet the minimum internal space standards set out in Table 5.5.</p> <p>6. Minimum parking standards for HMOs are set out in Policy 32 and Appendix C.</p> <p>7. Adequate provision must be made for the storage of refuse and recycling containers whereby the containers are not visible from an area accessible by the public, and the containers can be moved</p>

4.106. Over the reporting period:

- applications for lawful development certificate for an existing use as HMO;
  - C4 HMO - 18 properties granted certificate / one property refused certificate;
  - Sui generis HMO - 5 properties granted certificate / 3 properties refused certificate;
  - one applications (C4) dismissed.
- three discharge of condition application relating to extant HMO applications; (one C4 HMO, one Sui Generis HMO, one loss C4 HMO to care home)
- Formal advice given to one change of use from flat to C4 HMO;
- two HMO applications dismissed, one C4 HMO application withdrawn;
- nine applications approved for a proposed HMO use (5 Sui Generis HMO, six C4 HMO) see table 4.16;
- one application approved for change of use from HMO; and
- four applications refused permission (two Sui Generis HMO, two C4 HMO).

4.107. On the 13 September 2022 Kingston upon Hull City Council adopted the Houses in Multiple Occupation Supplementary Planning Document (SPD20). The adopted SPD provides additional guidance on Policy 7 Houses in Multiple Occupation, Part 2 (a), of the Hull Local Plan 2016 to 2032. The SPD provides advice on avoiding concentrations of houses in multiple occupation (HMOs) and safeguarding residential amenity. Copies of the Houses in Multiple Occupation Supplementary Planning Document (SPD20) September 2022 and other SPD's are available for inspection on the Council's website at:

[www.hull.gov.uk/planning/planning-applications/supplementary-planning-documents](http://www.hull.gov.uk/planning/planning-applications/supplementary-planning-documents)

**Gypsy and Traveller pitches**

4.108. The Local Plan identified a need in Hull for 15 pitches over the Local Plan period, with 3 of these meeting the new PPTS definition. The Local Plan details the identified needs over time periods within the Local Plan period, for both Travellers who do, and those Travellers who do not, meet the new definition, identified need are shown in Table 4.17 below.

4.109. The city currently has 70 residential pitches on four sites at Bankside, Wilmington, Bedford Street and Newington (existing Gypsy and Traveller sites, as at 31 March 2016, are shown in table 4.18), there are currently no transit pitches or sites.

<b>Policy 8 - Traveller provision</b>
1. The Council will accommodate the identified need for 3 Traveller pitches in the 5-year period 2016-21 in or adjacent to existing Traveller sites, as shown on the Policies Map, provided they are designed to effectively manage the risk of flooding.
2. The Council will seek to: <ul style="list-style-type: none"> <li>a. accommodate the identified need for 6 Traveller pitches in the plan period 2021-32 on suitable sites in Flood Risk zones 1 and 2; and</li> <li>b. identify transit sites and/ or tolerated stopping places in suitable locations to accommodate up to 25 Traveller pitches.</li> </ul>
3. The Council will support the provision of Traveller sites in Flood Risk zones 1 and 2.
4. If a new Traveller site is to be located in Flood Risk zone 3a, it will be granted only a seasonal permission.
5. New Traveller sites should: <ul style="list-style-type: none"> <li>a. avoid areas of high flood risk;</li> <li>b. provide adequate on-site services and facilities, including water, drainage, sewerage, waste disposal, electricity, access and parking;</li> <li>c. have access to schools, health services and shops; and</li> <li>d. respect the amenity of nearby residents.</li> </ul>
6. Existing Traveller sites at Bankside, Bedford Street, Newington and Wilmington, as shown on the Policies Map, will be protected from conflicting development.

4.110.A Planning Application was received 24<sup>th</sup> March 2021 to consider additional permanent traveller pitches and temporary stopping places at Bedford street/ Mount Pleasant. The application was granted permission 18<sup>th</sup> January 2022. Preparation for delivery and clearance of the site is underway as at 1<sup>st</sup> April 2023.

**Reference 21/00450/FULL - Bedford Street/Mount Pleasant**

Application Details:

- 1) Provision of 10 permanent traveller pitches at northern side of the site;
- 2) Provision of up to 17 'Temporary Stopping Places' / 'Emergency or negotiated stopping places for negotiated stays up to 28 days. (To be used on a seasonal basis, expected to be between April and October);
- 3) Formation of vehicular access onto Mount Pleasant for 'Temporary Stopping Places' part of site;
- 4) Provision of open space in SW corner of site.  
(following demolition of existing vacant commercial building to North side of site)

The Permission was not implemented within this Authority Monitoring Report period.

## Local Plan Chapter 6 – City Centre.

### City Centre Housing

#### Policy 9 - City Centre - Housing

3. Approximately 2,500 homes will be developed in the city centre over the plan period to meet needs and to promote a larger city centre resident population. Homes will be delivered on allocated housing sites, within allocated mixed-use sites, and within upper floors of properties that make up the primary shopping area where these are not in retail use, and in locations that will not undermine the operation of main town centre uses that are critical to the function of the city centre.

4.111. Policy 9 identifies approximately 2,500 homes will be developed in the city centre over the plan period to meet needs and to promote a larger city centre resident population. Within the first 8 years of the Local Plan period 917 homes have been delivered in the city centre, with 490 (53.4%) of these homes delivered within Local Plan allocations. See table 4.18.

**Table 4.18: Housing Completions within Hull Local Plan Housing Allocations – City Centre Only.**

## City Centre Mixed Use Sites

**Policy 10 - City Centre Mixed Use Sites**

1. The following development opportunities identified within the city centre and shown on the Policies Map will be developed for a mix of uses:

a. Land at Albion Square (2.1 ha) (ref 1) will be developed for a major retail-led development with strong linkages provided to Jameson Street and other parts of the Primary Shopping Area of the city centre. Other main town centre uses will be supported on the site where they are ancillary to retail and do not prevent this objective for the site being achieved. The site should also be developed to accommodate approximately 270 dwellings. At least the same amount of parking on the site will be retained through construction of a new multi-storey car park.

b. Land around Myton Street (west of Princes Quay) (3.8 ha) (ref 2) will be developed for a new conference centre and live music venue together with a hotel and retail space. Other main town centre uses and residential development will be supported where these are complementary to the main uses and do not constrain the main development priorities for the site. The current amount of parking on the site will be retained or improved through construction of a new multi-storey car park.

c. The Fruit Market and Digital Quarter (2.7 ha) (refs 4, 5, & 7) will be developed for a range of main town centre uses including small-scale retail, restaurant and café uses, B1 offices and work spaces, services and cultural facilities. Approximately 150 dwellings will be developed in addition to those allocated on housing allocation site 195. Development will be of a scale that remains in character with the street scene of the Fruit Market, and details will be guided by the Fruit Market Masterplan and relevant development briefs.

d. East Bank and River Hull Corridor (2.8 ha) (refs 8, 9, 10) will be developed for a range of uses, predominantly residential, but also with the potential to include leisure, office, or hotel use. The sites should be developed to accommodate approximately 850 dwellings. Development will be designed to ensure that it does not lead to any significant adverse impact on adjoining business units, and has full regard to the setting of the Old Town.

e. Former Central Police Station and George Street Car Park (0.8ha) (ref 20) will be developed for residential, office and/ or educational uses. The sites should be developed to accommodate approximately 100 dwellings. Development will include demolition of the existing car park, and should allow replacement of approximately 150 spaces to allow adequate parking to service this part of the city centre.

f. Land adjacent to Central Fire Station (0.46ha) (ref 21) will be developed to provide an extension to Hull New Theatre, and a new University Technical College.

g. The site of the former LAs nightclub (0.83ha) (ref 14) and Circus Circus public house (0.06ha) (ref 12) on Ferensway will be developed for a range of uses including hotel, office and/ or residential.

2. Development of sites will be guided by development briefs or masterplans to ensure that full consideration is given to any specific features on-site as well as their wider context. A full schedule of development briefs is provided in Table 14.3 in Chapter 14.

4.112. Details of employment and housing developments on mixed use sites are provided in relevant chapters above.

**Local Plan Chapter 7 – District, Local and Neighbourhood Centres.**

**City Centre and District, Local shops and Neighbourhood Centres.**

<b>Policy 12</b>
<p><b>District, Local and Neighbourhood Centres</b></p> <p>1. District centres will be the location for main town centre uses and also community facilities that can serve a catchment over a significant area of the city and immediately adjoining areas, but would not, by their scale or nature, either individually or cumulatively, serve a catchment area including the city as a whole or the wider sub-region/ region beyond.</p> <p>2. Local and neighbourhood centres will be the location for a range of main town centre uses and also community facilities that provide access to the more immediate communities they serve, and would not, by their scale, nature and expected catchment, be more appropriate within a District Centre.</p>
<p><b>Sequential and impact tests</b></p> <p>3. Where development of main town centre uses is proposed on the edge of or outside of centres, the sequential test should take full account of the role of the city centre defined within Policy 9, and then other centres defined in this policy and the hierarchy in Policy 11 of the Local Plan. For all district, local and neighbourhood centres, the sequential test should consider locations within centre boundaries, as defined on the Policies Map, as in-centre for all main town centre uses.</p> <p>4. Where retail, leisure or office development is proposed outside centres, an impact assessment will be required when development is above the following thresholds:</p> <ul style="list-style-type: none"> <li>• A1 retail, or a use that could change to A1 retail without planning permission, over 900 sqm;</li> <li>• office development over 1,000 sqm;</li> <li>• or leisure development over 2,500 sqm.</li> </ul>
<p><b>Vitality and viability of centres</b></p> <p>5. Within primary frontages of Hessle Road and Holderness Road District Centres, a high proportion of the ground floor frontage length should remain in A1 shopping use. Change of use from A1 shops to non-A1 class uses within the primary frontage will be permitted where the proportion of non-A1 ground floor frontage length would not exceed 30%. Within remaining parts of the primary shopping areas of these centres, change of use from A1 shops to non-A1 class uses will be permitted where the proportion of non-A1 ground floor frontage length would not exceed 50%.</p> <p>6. Within the primary frontage area of North Point District Centre, a high proportion of the ground floor frontage length should remain in A1 shopping use. Change of use from A1 shops to non-A1 class uses will be permitted where the proportion of non-A1 ground floor frontage length within the primary shopping area would not exceed 30%.</p> <p>7. Within Kingswood District Centre, a mix of service and community uses will be encouraged to supplement the high proportion of A1 shopping frontage.</p> <p>8. Within local centres, change of use to non-A1 uses will be permitted where the proportion of non-A1 ground floor frontage units within the primary shopping area would not exceed 50%, to maintain the strong A1 shopping role of these centres.</p> <p>9. Where stated proportions would be exceeded, development should demonstrate that it would not undermine the vitality and viability of the centre. Where current non-A uses within centres are converted to retail use, or new retail units are developed within or on the edge of centres, they will be considered as part of the overall mix of uses for the purpose of determining proportions.</p> <p>10. In the city’s neighbourhood centres, development that leads to the loss of food shops will not be supported when that loss would lead to a lack of easy access to food shops within easy walking distance of surrounding residential neighbourhoods.</p>

## OFFICIAL

11. In areas outside of defined centres, the Council will not support conversion or change of use of corner shops and local convenience stores to other uses where this would lead to a lack of easy access to food shops within easy walking distance of surrounding residential neighbourhoods.

**Food & drink, drinking establishments and hot food takeaways.**

12. Development of food and drink, drinking establishments or hot food takeaway outlets (A3 – A5) will be permitted within centres where they do not lead to an over-concentration of inactive frontages within stretches of properties that would undermine vitality and viability or would harm local amenity.

13. Development to accommodate hot food takeaway (A5) use will not be supported in local or neighbourhood centres where a threshold of 20% of all units would be or has already been reached, to prevent over-proliferation where this could undermine objectives to promote healthy eating in the city.

14. Development to accommodate hot food takeaway (A5) use will not normally be supported within 400m of a secondary school or sixth form college or playing fields.

**Community facilities**

15. *Community facilities should be located in or adjacent to district, local or neighbourhood centres where they serve a significant catchment, to promote linked trips and ease of access by public transport.*

4.113. The Local Plan establishes a hierarchy of over 60 district, local and neighbourhood centres that act as a focus for shops, retail services, leisure opportunities and community facilities.

4.114. The figure below shows all retail planning decisions determined between the 1st of April 2023 and the 31st of March 2024. Policy 12, (3) and (4) set out the sequential and impacts tests which are intended to direct retail development in the first instance to Hull City Centre, followed by district centres, then local centres and on to neighbourhood centres. Only two applications received over this period involved proposals for retail (former A1 Shops) developments out of a designated centre. One (22/01567/FULL) - Construction of single storey retail unit Class E(a) including ATM was permitted but was not policy compliant, as it was unacceptable as the convenience store should be located in a retail centre in the first instance, however still recommended for approval as the delegated report concluded that suitable evidence has also been submitted to demonstrate that sequential preferable sites within other retail centre were not available for the retail proposed. The other permitted application was for a single small retail unit (23/03185/FULL) - Construction of outbuilding to side/rear, for use as a hair salon again was not policy compliant, as a hair salon should be located in a retail centre in the first instance, however the delegated report noted as the proposed development was very small it was unlikely to have a negative effect any retail centre.

OFFICIAL

**Table 4.19: Planning applications involving retail development or a change of use to or from a former A1 shop unit (now Class Use E).**

Application Details	Address (including centre if applicable)	Decision and date	Policy compatibility	Policy compliant - Y/N
22/00823/FULL - Change of use of former hair salon on ground floor to residential apartment including infill extension at rear.	Headfirst, 72 Salisbury Street. (Not in centre)	Permitted - 28/04/23	Acceptable as it that it accords relevant Local Plan retail policies.	Y
23/00362/COU - Change of use of units G6 and G7 from use Class E to Mixed Use (Class E and/or drinking establishment).	Princes Quay Shopping Centre, G6 And G7, Main Deck. (In centre - Hull City Centre)	Permitted - 16/05/23	Acceptable as this proposal would not lead to an over-proliferation of non-A1 uses in the primary frontage of the City Centre (not above the 30% threshold).	Y
22/01567/FULL - Construction of single storey retail unit Class E(a) including ATM.	Base Business Space, Chamberlain Road. (Not in centre)	Permitted - 19/05/23	Unacceptable as the convenience store should be located in a retail centre in the first instance, however still recommended for approval as the delegated report concluded that suitable evidence has also been submitted to demonstrate that sequential preferable sites within centres are not available for the retail proposed.	N
22/00863/FULL - Change of use from private hire booking office (Sui generis use) to Student Letting Office (Use Class E).	26 Cottingham Road. (In centre - Cottingham Road LC)	Permitted - 19/05/23	Acceptable as it is a new potential retail use (E use) and the site is located within the primary shopping area of the local centre.	Y
23/00482/COU - Change of use from vacant hair salon to tattoo studio.	43 Baker Street. (In centre - Hull City Centre)	Permitted - 12/06/23	Acceptable as the proposal is located out of the primary or secondary frontage of Hull City Centre and as such it is not contrary to Local Plan retail policies.	Y
22/01707/FULL - Change of use from ground floor Public House to Class E (retail/café/food outlet).	Kingston Tavern, 76 Paragon Street. (In centre - Hull City Centre)	Permitted - 03/08/23	Acceptable as the proposal is for a new retail unit located within the boundary of Hull City Centre.	Y
23/00472/COU - Change of use from shoe shop to Cocktail Bar (Drinking Establishment).	Reads Footwear, 20 Savile Street. (In centre - Hull City Centre)	Permitted - 31/08/23	Acceptable as this proposal would not lead to an over-proliferation of non-A1 uses in the secondary frontage of the City Centre (not above the 60% threshold).	Y
23/00428/COU - Change of use from hair salon to drinking establishment.	19 Savile Street. (In centre - Hull City Centre)	Permitted - 07/09/23	Acceptable as this proposal would not lead to an over-proliferation of non-A1 uses in the secondary frontage of the City Centre (not above the 60% threshold).	Y
23/00480/FULL - Change of use of vacant bank to 1x hot food takeaway unit and x1 Class E (retail) unit on ground floor.	226 - 228 Holderness Road. (In centre - Holderness Road DC)	Refused - 20/09/23	Acceptable as this proposal would not lead to an over-proliferation of non-A1 uses in the primary frontage of the Local Centre (not below the 50% threshold) and complies with other retail policies.	Y
23/00349/COU - Change of use from cafe to bar (drinking establishment) use, (ground floor only).	49 Savile Street. (In centre - Hull City Centre)	Permitted - 02/10/23	Acceptable as this proposal would not lead to an over-proliferation of non-A1 uses in the primary frontage of the City Centre (not above the 30% threshold).	Y

OFFICIAL

Application Details	Address (including centre if applicable)	Decision and date	Policy compatibility	Policy compliant - Y/N
23/02798/FULL - Provision of restaurant/takeaway with drive-thru lane.	Kingswood Leisure Park, Gibraltar Road. (In Kingswood Leisure Park)	Permitted - 23/10/23	Acceptable as this proposal is located within Kingswood Leisure Park and the only relevant policy which could be applied to this application is Local Plan Policy 12, point 14 (located within 400m of a playing field etc.). As this property is not located within 400m of a secondary school, playing field or outdoor sports facility it will not be contrary to any Local Plan retail policies.	Y
23/00508/COU - Change of use of ground floor from hairdressers to delicatessen.	Kingston Chambers, 17 Princes Dock Street. (In centre - Hull City Centre)	Permitted - 27/10/23	Acceptable as the proposal is located out of the primary or secondary frontage of Hull City Centre and as such it is not contrary to Local Plan retail policies.	Y
22/00053/FULL - Change of use to retail shop and sandwich bar; installation of ATM machine; and alterations to the shop front including installation of roller shutters and signboards.	84 - 86 Anlaby Road. (In centre - Hull City Centre)	Refused - 07/12/23	Acceptable as the proposal is for a new retail unit located within the boundary of Hull City Centre. Refused on parking/pedestrian safety standards (Policy 26 and 32, not retail policies).	Y
23/03185/FULL - Erection of outbuilding to side/rear, for use as a hair salon.	92 Southcoates Lane. (Not in centre)	Permitted - 22/12/23	Unacceptable as a hair salon should be located in a retail centre in the first instance, however the delegated report noted as the proposed development was very small it was unlikely to have a negative effect any centres.	N
23/03496/FULL - Change of Use from Use Class E to Sui Generis (Betting Office).	314 Hessle Road. (In centre - Hessle Road DC)	Permitted - 01/02/24	Acceptable as this proposal would not lead to an over-proliferation of non-A1 uses in the primary frontage of a District Centre (not above the 30% threshold).	Y
23/03180/FULL - Change of use from betting office (Sui Generis Use Class) to Class E Uses (ground floor only).	65 Princes Avenue. (In centre - Princes Avenue LC)	Permitted - 02/02/24	Acceptable as it is a new potential retail use (E use) and the site is located within the primary shopping area of the local centre.	Y
23/03256/FULL - Change of use from retail shoe shop into a music education facility.	Anthony Goldthorpe Fine Shoes, 189 Newland Avenue. (In centre - Newland Avenue LC)	Permitted - 09/02/24	Acceptable as this proposal would not lead to an over-proliferation of non-A1 uses in the primary frontage of a Local Centre (not above the 50% threshold).	Y
23/03534/FULL - Proposed change of use to a hot food take away.	52 Cottingham Road. (In centre - Cottingham Road LC)	Refused - 13/02/24	Unacceptable due to its impact on health, being located within 400m of outdoor sports facility/playing fields. And it is considered that it does not accord with Local Plan Policy 12 (contrary to points 13 and 14).	Y
23/03536/COU - Change of use of vacant unit from approved retail use to cafe bar use (Class E).	Unit 1, 458 Holderness Road. (In centre - Holderness Road/Faraday Road LC)	Permitted - 16/02/24	Acceptable as this proposal would not lead to an over-proliferation of non-A1 uses in the primary frontage of a Local Centre (not above the 50% threshold).	Y

Application Details	Address (including centre if applicable)	Decision and date	Policy compatibility	Policy compliant - Y/N
23/03200/COU - Change of use from Use Class E to launderette (sui generis use) (ground floor only).	410 Hesse Road. (In centre - Hesse Road DC)	Permitted - 22/02/24	Acceptable as this proposal would not lead to an over-proliferation of non-A1 uses in the primary frontage of a District Centre (not above the 30% threshold).	Y
23/03541/FULL - Change of Use from Sui Generis (Amusement Centre) to Sui Generis (Betting Office).	43 Jameson Street. (In centre - Hull City Centre)	Permitted - 23/02/24	Acceptable as this proposal would not lead to an over-proliferation of non-A1 uses in the primary frontage of the City Centre (not above the 30% threshold).	Y
24/00043/COU - Change of use of vacant public house to adult gaming centre (Sui Generis).	Kingston Tavern, 76 Paragon Street. (In centre - Hull City Centre)	Permitted - 22/03/24	Acceptable as this proposal would not lead to an over-proliferation of non-A1 uses in the secondary frontage of the City Centre (not above the 60% threshold).	Y
DC - District Centre      LC - Local Centre				

4.115. Revisions to The Use Classes Order introduced by the Government in 2020 have and continue to affect the role and effectiveness of Local Plan retail policies. The main driver of this change, largely resulting from continued changes in demand for retail premises following the Covid19 pandemic and the cost-of-living crisis is the need to enable the repurposing of buildings in high streets quickly.

4.116. The introduction of the Use Class E which has amalgamated A1, A2, A3, B1a, B1b, B1c and part D1 and D2 uses into one use class, allowing flexibility of uses without the need for planning permission. This greater flexibility of uses within the Use Class E may have an impact on Local Plan retail policy's ability to control certain changes of use within centres.

4.117. Policy 12, points 5 to 11 concern the authorities' ability to protect the vitality and viability of retail centres. As the Policy stands, these points state that a high proportion of the ground floor frontage units should remain in A1 shopping use and sets out a threshold for each category of centre above which a planning application for a change of use from an A1 shop to a non-A1 use will not normally be permitted.

4.118. Changes to the Use Classes Order (see above) could affect this policy interpretation. Whilst it is still possible to have regard to thresholds when considering planning applications this material change (the flexible change of use of former A1, A2 or A3 to Use Class E without planning permission) could outweigh the policy requirement demanded of Policy 12.

4.119. Policy 12, point 12 and 13 seeks to control the concentration of drinking establishments and hot food takeaway premises in centres (prior to the introduction of revised Use Class Order this would have also included cafes and restaurants). It is not intended to impose a blanket ban on the development of further A4 and A5 (now Sui generis uses) within centres, rather it is intended to manage developments in centres where there is already evidence of detrimental impacts of such uses, or there might be, should the development take place. An over-concentration of former A4 and A5 uses will depend on the size of a centre, the potential for numbers of such uses to impact the center's overall function or on locally identified amenity issues.

OFFICIAL

4.120. Policy 12, point 14 seeks to restrict new hot food takeaways opening within 400m of all secondary schools, sixth form colleges and playing fields. The figure below identifies planning decisions concerning new hot food takeaways from between the 1<sup>st</sup> of April 2023 to the 31<sup>st</sup> of March 2024 and includes the reason permission was refused/permitted.

**Table 4.20: Planning applications involving permission or refusal for hot food takeaways.**

Application Details	Address	Decision and date	Policy compatibility	Policy compliant - Y/N
23/00480/FULL - Change of use of vacant bank to 1x hot food takeaway unit and x1 Class E (retail) unit on ground floor.	226 - 228 Holderness Road.	Refused - 20/09/23	Unacceptable due to its impact on health, being located within 400m of outdoor sports facility/playing fields. And is considered that it does not accord with Local Plan Policy 12) (contrary to point 14).	Y
23/02798/FULL - Provision of restaurant/takeaway with drive-thru lane.	Kingswood Leisure Park, Gibraltar Road.	Permitted - 15/07/22	Acceptable as this proposal is located within Kingswood Leisure Park and the only relevant policy which could be applied to this application is Local Plan Policy 12, point 14 (located within 400m of a playing field etc.). As this property is not located within 400m of a secondary school, playing field or outdoor sports facility it will not be contrary to any Local Plan retail policies.	Y
23/03534/FULL - Proposed change of use to a hot food takeaway.	52 Cottingham Road.	Refused - 13/02/24	Unacceptable due to its impact on health, being located within 400m of outdoor sports facility/playing fields. And it is considered that it does not accord with Local Plan Policy 12 (contrary to points 13 and 14).	Y

## Local Plan Chapter 8 – Education, health and community facilities.

### Policy 13 Education, health and community facilities - University of Hull

1. Development and expansion of facilities at the University of Hull will be supported to enable it to fulfil its role as a key economic driver, particularly through research and development, and as a leading educational establishment.
2. Development on existing open space areas within the University Quarter, as defined on the Policies Map, will only be supported where there is a clear strategy to enable re-provision elsewhere and there is a commitment to this, including secured funding, prior to any development taking place. Proposals will also need to demonstrate how they impact upon the significance of the various designated heritage assets around the campus. A masterplan will form part of the strategy to give clear spatial definition of proposals, and to guide development decisions.
3. Development of student accommodation within the University Quarter, and upgrading of student accommodation within the University Quarter and in adjoining areas, will be supported.
4. Development to create new schools or expand or alter existing schools, as designated on the Policies Map, will be supported where it does not conflict with other key planning objectives. Provision of community facilities, including for sports and within new schools, will be promoted and provision should be made to ensure these are retained and continue to be accessible for local communities.
5. Development to create, expand or alter health facilities, including at Hull Royal Infirmary, will be supported where they do not conflict with other key planning objectives.
6. Development of new community facilities will be supported where they are located to best meet the needs of the anticipated users of the facility. Where the facility incorporates main town centre uses, then development should be subject to the sequential approach and consider relevant centres including within the City Centre, District, Local and Neighbourhood Centres. Other community facilities should consider centres where sites or properties are available, where they could promote linked trips and support the vitality and viability of centres, and where they would have an acceptable impact on the amenity of the surrounding area.
7. Extension of existing community facilities will be supported where it is of a scale appropriate to the location and use of the facility and would not have a detrimental impact on the amenity of the surrounding area.
8. Development that would involve the loss of significant community facilities will not be supported unless it can be demonstrated that:
  - a. the site is no longer needed for community use, or the loss would not create or add to a shortfall in the provision of such uses within its locality;
  - b. the land or buildings in question are no longer suitable to accommodate the current use, and cannot be retained or adapted to accommodate other community facilities;
  - c. the community use is to be incorporated or replaced within a new development or redevelopment of the site; or
  - d. existing nearby community uses can be improved to accommodate the loss, or suitable alternative facilities are provided close by.

4.121. Hull Local Plan Policy 13 supports the development and expansion of the University of Hull including student accommodation within the University Quarter and other education facilities across the city. Likewise, the policy supports the expansion and improvement of health services across the city including specifically at Hull Royal Infirmary. In a more general sense, the policy is supportive of new and expanded community facilities in the city where a need is identified and looks to resist the loss of such facilities unless a number of specific criteria can be addressed including for example being able to demonstrate that need no longer exists or a suitable replacement is proposed.

## OFFICIAL

4.122. University projects delivered within the Local Plan Period include student accommodation to housing allocation H691 and an additional accommodation site within the University grounds overlooking King George Fields. These totaled 375 high rise flats with 2,024 bedrooms provided. Within the AMR reporting period no additional student accommodation has been added to the University Grounds.

### **Education and schools**

4.123. For the AMR period approval has been given to extend schools with schemes for new assembly/activity hall, modular classrooms, single storey extensions, temporary building, installation of a play area and replacement of a scoreboard.

4.124. Permission was also granted for change of use to form a further/higher education facility for East Riding College and an extension to a learning centre.

### **Health**

4.125. Two extensions to medical centres were approved and also a single storey extension to provide a seclusion suite.

### **Community facilities**

4.126. During this year approval has been given for a new 3G pitch, spectator area and larger scoreboard at KC Lightstream Stadium. Permission was also granted for a schemes to create five ponds as habitats for Great Crested Newts, a new animal hospital and a new building to form a "Hope Centre".

**Local Plan Chapter 9 – Design and Heritage**

**Design**

<b>Policy 14 - Design</b>
<p><i>Development should demonstrate how its design supports the delivery of a high quality environment in Hull, particularly with regard to:</i></p> <ul style="list-style-type: none"> <li><i>a. the relationship between the development and the surrounding built form of the city in terms of:</i> <ul style="list-style-type: none"> <li><i>i. character</i></li> <li><i>ii. use and surrounding uses</i></li> <li><i>iii. layout and connectivity</i></li> <li><i>iv. setting and relationship to key heritage assets</i></li> <li><i>v. scale</i></li> <li><i>vi. massing</i></li> <li><i>vii. grain and density</i></li> <li><i>viii. architectural structure and enclosure</i></li> <li><i>ix. detailing and materials;</i></li> </ul> </li> <li><i>b. encouraging active and healthy lifestyles;</i></li> <li><i>c. providing landscaping which retains natural features where possible;</i></li> <li><i>d. providing inclusive access;</i></li> <li><i>e. opportunities to promote public safety and minimise the risk of crime;</i></li> <li><i>f. the creation of inclusive public spaces which encourage community interaction through:</i> <ul style="list-style-type: none"> <li><i>i. inclusive design</i></li> <li><i>ii. active frontages</i></li> <li><i>iii. high quality public realm</i></li> <li><i>iv. appropriate soft and hard landscaping</i></li> <li><i>v. minimising the potential for anti-social behaviour</i></li> <li><i>vi. providing public art where appropriate;</i></li> </ul> </li> <li><i>g. ensuring where development is proposed in the city centre, its design and landscaping complements the 2016/17 materials in the public realm. Where possible, this will involve the use of the same palette of materials.</i></li> </ul> <p><i>Development which does not meet these criteria will be refused.</i></p>

<b>Policy 15 - Local distinctiveness</b>
<ul style="list-style-type: none"> <li><i>1. Development should promote local distinctiveness where appropriate, with particular reference to:</i> <ul style="list-style-type: none"> <li><i>a. improving access to and making effective use of the Port, the city’s waterfront and maritime assets along the River Hull and the Humber Estuary whilst taking account of flood risk;</i></li> <li><i>b. creating a network of landmarks in prominent or gateway locations to develop legible local references that distinguish parts of the city;</i></li> <li><i>c. encouraging contemporary architecture that respects the city’s heritage, creating positive and distinctive contributions to enrich the built fabric;</i></li> <li><i>d. the setting, character and appearance of Listed Buildings, Conservation Areas and other heritage assets;</i></li> <li><i>e. waymarking arterial routes; and</i></li> <li><i>f. ensuring proposals, including those on allocated sites, accord with any adopted masterplan, development brief or local development order.</i></li> </ul> </li> <li><i>2. Development of tall buildings (above 30m in height) in and around the city centre, as shown on the Policies Map, must demonstrate that:</i> <ul style="list-style-type: none"> <li><i>a. they would not harm the character or appearance of the city centre Conservation Areas which are characterised by their low rise nature;</i></li> <li><i>b. would not harm the setting of heritage assets;</i></li> <li><i>c. they would not harm the distinctive, historic skyline;</i></li> <li><i>d. there would be an acceptable impact on views and vistas across and within the city centre;</i></li> <li><i>e. they are providing a positive contribution to the skyline through a high standard of design.</i></li> </ul> </li> </ul>

4.127. In this reporting period, urban design issues were raised for 103 planning applications and considered for 18 pre-application discussions.

4.128. Projects involving urban design input included:

- **Castle Buildings and Earl de Grey public house** - part of the A63 expansion, ensuring their enhancement as part of the wider bonus arena area.
- **Albion Square** - providing feedback and promoting the council's design expectations to the appointed design team and developer.
- **Queens Gardens** - Ongoing discussions on the materials and layout in the public realm design to support the council's design expectations.
- **South Blockhouse** - Providing feedback on the layout and materials to enhance the public experience and understanding of the South Blockhouse project.
- **East bank** - Reviewing existing internal design guidance on the site, and ongoing discussions with prospective developers.
- **West Docklands Consultation period** - Consultation undertaken to stimulate public conversation around the future uses of the West Docklands area, including a potential cruise terminal. Consultation occurred over a series of in-person events aimed at members of the public, local business, and other stakeholders. The online engagement platform accounted for the largest share of participation.
- **West docklands Design Brief** - The final West docklands Design Brief was published in November 2024 in response to public consultation. The brief provides comprehensive design guidance for new employment, residential, and cruise-related developments in the area. It also includes recommendations for enhancing the public realm design to complement existing retail and leisure activities.
- **Arctic Corsair** - On-going discussions on the design of the new visitor attraction, in particular the design of public realm.
- **Reviewing Internal Design Guidance** - Undertaking a comparative review of design guidance within LAAPs against the council-adopted Building for a Healthy Life standards and the recently adopted Hull Residential Design Guide. This review forms part of the ongoing local plan review process.
- **Avenues Conservation Area** - Public consultation was conducted in The Avenues Conservation Area to assess public support for implementing an Article 4 Direction to restrict murals in the area. The digital engagement platform received the most participation. The consultation revealed limited public support for mural restrictions, leading to the recommendation that an Article 4 Direction is unnecessary at this time.

4.129. The Hull Residential Design Guide (SPD 7) was adopted in January 2020. The SPD sets out expectations of design quality and should be used to inform the design approach of all residential schemes in the authority area. Hull's Residential Design Guide aims to improve the quality of living, enhance local distinctiveness, and prioritise sustainability and active connectivity as the population and investment increases.

## Heritage

### Policy 16 - Heritage considerations

1. *Development that would cause harm to the significance of a designated heritage asset will only be approved where it has been convincingly demonstrated that the harm cannot be avoided and there would be public benefits sufficient to outweigh the harm or loss caused. Scheduled Monuments, Registered Parks and Gardens and Conservation Areas are shown on the Policies Map.*
2. *Development affecting non-designated heritage assets must demonstrate that it has taken account of the particular interest of the asset. Development which would result in harm to or the loss of a non-designated heritage asset must demonstrate that:*
  - a. *it would not be economically viable for the asset to be retained and that harm could not be avoided; and*
  - b. *the economic or community benefits of the proposed development outweigh its loss.*
3. *Where development is acceptable in principle but would affect an archaeological deposit of less than national importance, the Council will seek to preserve the remains in situ. If this is not achievable, adequate provision for excavation and recording before and during development and publication, curation and dissemination of findings after development, will be required.*
4. *Where evidence supports it, Article 4 Directions removing permitted development rights will be introduced to preserve the character of an area.*
5. *Development and initiatives which preserve and/ or enhance the significance and setting of the city's heritage assets will be supported, especially those elements which contribute to the distinct identity of Hull. In addition to the city's designated heritage assets, important heritage assets include:*
  - a. *buildings with heritage value, wet and dry docks, wharves and ancillary structures, and features relating to Hull's fishing, maritime and industrial heritage;*
  - b. *the city centre as defined on the Policies Map, with particular reference to the surviving medieval and early post-medieval settlement, the Georgian townscape, and Victorian and Edwardian public buildings, especially within the Old and New Towns, and in the Charterhouse Conservation Area;*
  - c. *locations in the wider city which define the development of Hull such as the historic cores of medieval villages and settlements, such as 132 Adopted November 2017 Hull Local Plan 2016 to 2032 Sutton and Marfleet, the later nineteenth and early twentieth century suburban developments such as the Avenues/ Pearson Park and Anlaby Park, and planned garden suburbs at Broadway and Garden Village;*
  - d. *locally Listed Buildings and sites identified on the local Historic Environment Record;*
  - e. *archaeological remains and deposits including the city walls, Beverley Gate, Hull Citadel and nationally significant military defences dating from the mid-fourteenth to the mid-nineteenth centuries on the east bank of the River Hull;*
  - f. *archaeological remains and deposits relating to the Romano-British riverside settlements lining the banks of the River Hull from Kingswood to Stoneferry; and*
  - g. *the University of Hull Quarter as shown on the Policies Map.*

## OFFICIAL

- 4.130. Hull Local Plan Policy 16 sets out how the Council seeks to protect both designated and non-designated heritage assets in the city. This includes both above ground and below ground assets. The policy makes specific reference to the use of Article 4 Directions to preserve the character of an area. Proposals which preserve and /or enhance the significance and setting of the city's heritage assets will be supported.
- 4.131. There are 482 statutory listed buildings (8 of which are classed as being at risk), 204 buildings or groups of buildings which are locally listed, 34 sites identified as being of local archaeological value, 26 conservation areas (2 of which are classed as being at risk by Historic England), 2 scheduled monuments and 2 registered parks.
- 4.132. Throughout the course of the reporting period, the Conservation team responded to 283 (an increase of 11%) development management consultations, with 9 re-consultations, requiring specialist heritage comments/input. 97.5% were responded to within 21 days.
- 4.133. No listed buildings were demolished or de-listed over the reporting period.
- 4.134. Within the reporting period eight buildings were entered on the At Risk Register, with one building being added since time of last report. Quarterly updates continue to be provided to the Planning Policy Committee. An update on the position at the end of the reporting period is set out in Table 4.21 below.

**Table 4.21: Listed Buildings at Risk update**

Total number of listed buildings in Hull: 482

Total number of listed buildings At Risk in Hull: 8

Listed Building at Risk	Grade/Date Listed	Year Added to Register	Ownership	Condition	Notes
The Strand, Brunswick Avenue	II/1993	1999	Building: Kimti Investments Ltd  Curtilage land to the east and west of the building: Planet Limited	'Ruined but stable shell' following fire damage on 30 April/1 May 2016	<p>Background Summary:</p> <ul style="list-style-type: none"> <li>• SPD 18 Brunswick House and the Stand adopted 8 June 2021. The document advises on the development potential and parameters of the site.</li> <li>• Attempts to acquire the site by agreement have been unsuccessful.</li> <li>• A Repairs Notice has been issued against the building on two occasions – 15.07.16 and 16.02.22. The notices have not been complied with.</li> <li>• Following non-compliance with the Repairs Notice the Council have the option to CPO the building under S48 of the Listed Buildings Act.</li> <li>• A position has been reached that the CPO of the site should be linked into the disposal of Brunswick House, to allow re-development of a wider area.</li> <li>• In 2023 letters have been issued to the registered owner of the building to highlight their responsibility to keep the building safe. No responses have been received.</li> </ul> <p>It was anticipated that Brunswick House would become vacant by September 2024. In the lead up to that date and in advance of marketing the wider site, a review of the legal requirements and a decision taken as to whether or not to progress with a CPO.</p> <p>Considerations:</p>

OFFICIAL

Listed Building at Risk	Grade/Date Listed	Year Added to Register	Ownership	Condition	Notes
					<ul style="list-style-type: none"> <li>• The building is within a significant state of structural decay.</li> <li>• The site is subject to trespass and occupation, which leaves members of the public at risk.</li> <li>• Development of the building as a single entity will likely result in a high 'conservation deficit' and require enabling development to make the building attractive to a developer.</li> <li>• A de-listing application could be submitted to remove a requirement to need listed building consent to demolish the building. This risks setting a precedent for this route to become an option to dispose of a listed building.</li> <li>• If the building becomes at risk of collapse a section 78 notice under the Buildings Act could be issues to enforce demolition of the building.</li> </ul> <p>Options:</p> <ul style="list-style-type: none"> <li>• Pursue CPO for the individual building. The Council would inherit the risks of structural failure and keeping the site safe from trespass and occupation.</li> <li>• Instruct Legal to commence options for forced sale of the site to allow it be put out for auction.</li> <li>• Pend CPO until vacancy of Brunswick House to allow strategy for wider enabling development of the site.</li> <li>• Submit an application for de-listing the site.</li> </ul> <p>Since Feb 2024 report the owner of the building has responded to Council correspondence, which outlines a willingness to dispose of the building. Matters were pending further internal discussion and review at subsequent committee meetings.</p>

OFFICIAL

Listed Building at Risk	Grade/Date Listed	Year Added to Register	Ownership	Condition	Notes
George Lamb Memorial Chapel, Lambert Street	II/ 1992	1999	Building: Lambert Properties (Hull) Ltd  Curtilage land to the west of the building: North Drive Properties Ltd	'Ruined but stable shell' following fire damage on 15 April 2015	<p>Background Summary:</p> <ul style="list-style-type: none"> <li>The ownership of the site is split into two different companies – Plot 1 contains the buildings and Plot 2 contains vacant land to the west.</li> <li>Costs of safe demolition, scaffold and monthly inspection since the 2015 fire has resulted in a substantial land charge against the building. This has been added to the Land Registry.</li> <li>Deputy Leader Decision Record signed in 2020 resulted in a Forced Sale of the building in September 2022. The building failed to sell at the sale.</li> <li>The payment of the land charges are outstanding to the Council, and accrue monthly.</li> </ul> <p>In November 2023 a meeting was undertaken with the owner of the building. The owner confirmed that land charge is preventing them from developing the site.</p> <p>Considerations:</p> <ul style="list-style-type: none"> <li>The land charge against the building is a significant barrier to its sale and re-development. Any subsequent development is likely to have a low profit margin or a 'conservation deficit'.</li> <li>The building is capable of restoration, with options residential or community use, subject to securing planning permission and listed building consent.</li> <li>A CPO of the building can be progressed under the Listed Buildings Act. If the CPO progresses the Council would in effect inherit the land charge debt.</li> <li>By serving a CPO the Council would inherit the monthly charges for inspection of the building.</li> </ul>

OFFICIAL

Listed Building at Risk	Grade/Date Listed	Year Added to Register	Ownership	Condition	Notes
					<p>Options:</p> <ul style="list-style-type: none"> <li>• Present a report to Cabinet to consider options for underwriting the Debt associated with the Land Charge. This could allow the Council either to re-issue a forced sale, CPO the building with the associated land charge or allow the owner to develop the site.</li> <li>• Prepare a Master Plan for the site to make the building more marketable for developers. The owner may benefit from this strategy.</li> <li>• A de-listing application could be submitted to remove a requirement to submit for listed building consent to demolish the building. As per the Strand, this may also set a precedent for other listed buildings.</li> </ul> <p>Matters were pending further consideration by Committee.</p>
Hennebique concrete workshop, Caroline Street	II/ 1978	2000	Allam Developments Ltd	Poor	<p>Background summary</p> <ol style="list-style-type: none"> <li>1. Planning applications have previously been refused for residential conversion of the building. An Appeal against refusal of one of the applications was dismissed in 2019. Refusal was given on the grounds of public harm of the loss of employment land.</li> <li>2. In the Summer of 2023 a prospective developer of the building commenced with pre-application discussions with the Council.</li> </ol> <p>In January 2024 the Agent for the proposed development has confirmed that a scheme for the site will be ready for review by the end of February. Applications 24/00192/LBC and 24/00191/FULL were received in March 2024 for partial demolition, alteration and</p>

					change of use of the building. Further information will be provided within the next reporting period.
National Picture Theatre, Beverley Road	II/ 2007	2013	Hull City Council	In need of consolidation and repair for its proper future preservation	<p><b>On Track</b></p> <p>Background Summary:</p> <ol style="list-style-type: none"> <li>1. The building benefits from Grant funding from the National Lottery Heritage Fund to implement a restoration programme and change of use to a community building.</li> <li>2. Applications 20/01442/LBC and 20/01441/FULL have been granted, and amended, to implement the programme of works.</li> <li>3. The implementation of the works has been delayed by the issue of a tender to award a contract for the works.</li> </ol> <p>The tender for the restoration works was issued in December 2023 and closed on the 9 January. A target contract commencement date was set for the 19 February 2024. Matters were pending the award of the contract to allow development to commence.</p>
Hydraulic Tower And Pump House, St Andrews Dock	II/ 1994	2018	Andrew Quay Hull LLP	Very Poor	<p>Background Summary:</p> <ol style="list-style-type: none"> <li>1. The building has been subject to fire damage in 2015 and is missing its roof and fenestration. It is in a poor condition.</li> <li>2. An application for the demolition of the building was refused in December 2017.</li> <li>3. Applications for the development of the Hydraulic Tower and Pump House have been granted in 2019 and 2022 but have not been implemented.</li> <li>4. The listed building is located within the St Andrew's Dock Conservation Area. The Conservation Area is on Historic England's Building at Risk Register.</li> </ol>

OFFICIAL

Listed Building at Risk	Grade/Date Listed	Year Added to Register	Ownership	Condition	Notes
					<p>A meeting was held in January 2024 with Historic England to review options for the St Andrew's Dock Conservation Area overall. A report is to be prepared on the future of the Conservation Area, and its individual buildings.</p> <p>Considerations:</p> <ol style="list-style-type: none"> <li>1. The redundancy of the St Andrew's Dock restricts options for future uses for the listed building.</li> <li>2. The Conservation Area is continually subject to trespass and vandalism. This is placing a stress on Police and Fire Services.</li> <li>3. A Repairs Notice can be issued against the building to re-instate its roofs and windows. However the serving of a notice will not stop future deterioration or vandalism of the building.</li> </ol> <p>Options:</p> <ol style="list-style-type: none"> <li>1. Progress with options to serve a Repair Notice. This will give an option of CPO if not complied with. There is a risk that long-term the Council would inherit the long-term maintenance of the building.</li> <li>2. Continue to monitor the building and consider its development as part of a wider options report for St Andrew's Dock Conservation Area.</li> </ol> <p>Over the next reporting period a full report will be prepared for Cabinet review.</p>
Castle Buildings, Castle Street	II/1994	2018	Castle Buildings LLP	Fair	<p>Background Summary</p> <ol style="list-style-type: none"> <li>1. The listed building has been long-term vacant and hidden behind scaffolding for c.20 years.</li> </ol>

OFFICIAL

Listed Building at Risk	Grade/Date Listed	Year Added to Register	Ownership	Condition	Notes
					<p>2. The listed building benefits from applications 19/00333/FULL, 19/00334/LBC, and 22/01214/S19, which approved a wider development scheme for Castle Buildings, the Earl De Grey Pub and a New Hotel.</p> <p>Outstanding matters regarding application 22/01209/LBC have been resolved, and approved in December 2024, with relevant phased conditions. Development subsequently started on site and work is expected to be completed during 2024.</p>
Trafalgar Street church, Beverley Road	II/1991	2020	Nelope Properties	Fair	<p>Background Summary:</p> <ol style="list-style-type: none"> <li>1. The building has been long-term vacant and subject to lack of maintenance and suffering structural faults to architectural elements.</li> <li>2. The building was granted planning permission for change of use and works of alteration against applications 17/01246/FULL and 17/01247/LBC.</li> <li>3. A National Heritage Lottery Heritage Fund grant for external works was awarded in August 2021. Issues with the withdrawal of the contractor resulted in a delay on commencement of the programme of works.</li> <li>4. During 2023 National Lottery allowed a revised Grant Application to allow the programme of restoration works to commence.</li> </ol> <p>Works commenced on site in November 2023 and are on track to be completed by April 2024.</p>
Former City Temple at Corner of Madeley Street.	II/1994	2023	Ownership: Hessele Road House Ltd.	Significant fire damage and partial demolition to rear section of the building.	<p>Background Summary:</p> <ol style="list-style-type: none"> <li>1. The building has a history of planning permission and listed buildings consent (17/01435/FULL &amp; 17/01573/LBC) for residential conversion.</li> </ol>

OFFICIAL

Listed Building at Risk	Grade/Date Listed	Year Added to Register	Ownership	Condition	Notes
				Repair works required to make good rear elevation of principal section of building.	<p>2. The building was subject to an arson attack on the 22 May 2023. A Section 78 Building Act Notice was issued to require urgent demolition of part of the building.</p> <p>A meeting was held with the owner of the site in December 2023. Agreement was reached that temporary works would be completed to the building by the end of January 2024. Minor works to make the building secure were undertaken following the meeting. However, works to repair the roof, temporarily secure the opening within the rear of the chapel and cover over the window openings have not been undertaken. Further report works were completed by the 31<sup>st</sup> March 2024 to make the building weathertight and structurally secure. The Sunday School section of the building is retained in partially collapsed status. Buildings remains out risk until restoration takes place.</p>

- 4.136. The Hull 'Local List' was first established by the Planning Committee in 2006. Further additions were made to the 'List' in 2007. Reviews were commenced of a re-survey of the List 2021-2022. Following appointment of the current Principal Conservation Officer, in November 2022, a re-survey was commenced, with a report being issued to Planning Committee in May 2023.
- 4.137. The May 2023 Report made the following outcomes – 1. the removal of three duplicate and one previously removed entries from the List, amendments to two title entries, the removal of six entries as a result of demolition and seven further entries due to loss of special interest. This left a total of 204 entries on the List, with the removal of 17.4% of entries, which originally featured on the list.
- 4.138. In May 2023 further additions were also nominated with the addition of 34 Archaeological Sites and 23 buildings and structures. The prior have been added to the list and at time of report the buildings and structures are being processed for addition to the list.
- 4.139. The report also reviewed the threats to the buildings retained on the Local List, such as demolition by prior notification and unsympathetic alterations. In response the Committee Approval was given to undertake public consultation on the introduction of Article 4 Directions. Work is ongoing to review the implementation of such Article 4 Directions.

### **Conservation Areas**

- 4.140. Following January 2023 a re-survey of the Council's 26 Conservation Areas commenced. Within the reporting period a full survey and public consultation completed for updates to the Jameson Street Conservation Area. A draft Committee report was also prepared, with recommendations to adopt extensions to the Conservation Area, a new character appraisal and to re-name the asset the 'Paragon Conservation Area'. The adoption outcomes will be reported within the next reporting period.
- 4.141. Throughout April and September 2023, the Historic England Grant funded Spring Bank Regeneration Plan Project was implemented. A series of public engagement workshops and business drop-ins were completed to provide feedback on how the Conservation Area can be re-generated. The outcome of the project was the preparation of a draft Character Appraisal, Shop Front Design Guide and Master Plan for the Spring Bank Conservation Area. A report to allow public consultation on the document was approved by Planning Committee and Area Committee, in February and March 2024 respectively. The adoption of the Management Documents will be reported in next year's report.
- 4.142. Survey work also commenced to Garden Village Conservation Area, with proposals progressed for the adoption of a new Character Appraisal & Management Plan and Article 4 Direction for 'Cross Overs' and 'Hard standings' being presented to Area Committee and Planning Committee in November and October 2023 and July 2023, respectively. Public consultation was completed between 1 February 2024 and 15 March 2024; the adoption process will be reported within next year's report.
- 4.143. No new conservation areas have been designated over the reporting period. Two of the city's conservation areas remain on the national 'at risk' register compiled by Historic England: Beverley Road and St Andrew's Dock.

**Beverley Road**

4.144. The Beverley Road Townscape Heritage continues to be implemented, with projects being undertaken at the Brunswick Arcade and Trafalgar Street Church.

4.145. Funding from the THS scheme also allowed the appointment of an external consultant to commence full re-survey of the Beverley Road Conservation Area, and to assess the impact of the THS scheme. Survey of the Conservation Area took place between June and November 2023. The Principal Conservation used this information to write a new Conservation Area & Management Plan for the Conservation Area and to propose changes to the heritage asset's designated boundary. Within the reporting period a Committee Report had been drafted, with outcomes to be reported in next year's report.

**St Andrew's Dock**

4.146. The isolated and derelict nature of the conservation area (and wider dock area) continues to be a problem and is exacerbated by ongoing antisocial behavior and the nature of land ownership (which is split between different parties). In relation to each surviving building within the conservation area, the planning situation at the end of the reporting period is as follows:

**Table 4.22: St Andrews Dock – current planning position of individual buildings**

<b>St Andrews Dock – current planning position of individual buildings</b>
<p><b>Boston Building</b> Application approved on 12 February 2020 for: External Alterations and associated access works. Approval valid until 12 February 2023. Now expired.</p>
<p><b>Insurance Building</b> Application approved on 24 January 2020 for: External Alterations to External Building, Demolition of Warehouse/Workshops and creation of Car Parking and Landscaped Area. Approval valid until 24 January 2023. Now expired.</p>
<p><b>Lord Line Building</b> Application refused on 23 November 2020 for: Erection of building to provide self-contained flats with undercroft parking following demolition of Lord Line Building. The applicant appealed the refusal however the appeal was dismissed in December 2021. An application to consider the Lord Line Building for statutory listing was rejected by Historic England on 11 March 2021. After carefully considering the contents of the application, it was judged not to provide any substantial new evidence that was not considered during the previous assessments to the list in 2014 &amp; 2003. Consequently, the previous decisions by the Secretary of State for Culture, Media and Sport not to add the building to the List of Buildings of Special Architectural or Historic Interest stands. Application now expired.</p>
<p><b>Hydraulic Tower and Pump House</b> Application approved on 11 February 2021 for: Installation of underground pipeline network, associated with proposed St Andrew's Dock district heating system (Approved as part of Consent Ref 19/00949/LBC) to serve Pump House, Hydraulic Tower, Insurance Building, Boston Building and site of Lord Line Building. Approval valid until 11 February 2024. Application now expired.</p>

## OFFICIAL

4.147. In January 2023 a meeting took place with Historic England to review options for the future of St Andrew’s Dock. Options for the future of the Conservation Area are being progressed.

4.148. The Hull Whitefriargate High Street Heritage Action Zone, which commenced in April 2019 continued to run until March 2024, with ongoing projects extending into April 2024 and beyond. Key projects commenced during April 2023 and March 2024 include the shop front restoration to Nos.1-3 Whitefriargate (applications 21/01739/LBC & 21/01740/FULL) and re-cladding and the restoration of the former Burton’s building (applications 22/00669/LBC and 22/00668/FULL).

4.149. There are 26 Article 4 Directions in Hull. The purpose of Article 4 Directions is not to prevent development, but to allow an assessment of the merits of works which do not normally require planning permission (in order to protect, preserve or enhance the character and appearance of Conservation Areas). Uncontrolled changes can have a cumulative impact on these areas.

4.150. As noted above one new Article 4 direction is being progressed for the Garden Village Conservation Area for ‘Cross Over’ and ‘hard standings’. Its adoption is scheduled for the end of 2024.

**Table 4.23: Article 4 Planning Applications 2023 to 2024.**

Area	Applications Made	Approved	Refused	Withdrawn	Appeals	Not yet determined
Avenues	33	24	5	1	0	3
Garden Village	2	1	0	1	0	0
Spring Bank	1	1	0	0	0	0
HIMOS	4	3	4	0	0	0

4.151. The number of scheduled monuments remains at 2.

4.152. The number of registered parks & gardens remains at 2.

**Energy efficient design**

<b>Policy 17 -Energy efficient design</b>
<i>1. Development should demonstrate how the design will reduce energy and water use and mitigate flooding, pollution and over-heating. This should include consideration of the siting, form, orientation, layout and construction materials of buildings. The principles of passive solar design should be followed to minimise the need for mechanical heating and cooling.</i>
2. Non-residential development should seek to achieve BREEAM 'Very Good' or better, unless it has been demonstrated through an economic viability assessment that it is not viable to do so.

4.153. Policy 17 (1) is applied within the development management of planning applications as appropriate. This policy’s performance is currently not monitored.

4.154. Policy 17 (2) includes the test ‘unless it has been demonstrated through an economic viability assessment that it is not viable to do so’. The examination of viability has resulted, since adoption of the Local Plan, in limited opportunities to apply Policy 17 (2) over the plan period.

<b>Policy 21 - Designing for housing</b>
1. Housing development should be designed according to Building for Life principles and will be required to achieve at least 9 green scores out of 12, minimise amber scores and avoid red scores.
<i>2. Housing density will be expected to be in the range of 30-40 dwellings per hectare unless the character of the surrounding area justifies otherwise, except in the city centre as shown on the Policies Map, where higher densities may be acceptable subject to the specific circumstances of the site and its surroundings.</i>
3. Housing development should provide accessible and adaptable dwellings that meet Building Regulation M4(2) standard in at least 25% of market housing and at least 50% of affordable housing, unless: a. in all Housing Market Value Zones, a detailed assessment of feasibility is provided by the developer and demonstrates that a reduced level of provision is justified; or b. in Housing Market Value Zones 1 and 2 only, a detailed assessment of viability is provided by the developer and demonstrates that a reduced level of provision is justified.
<i>4. The Council will seek to deliver wheelchair user dwellings that meet Building Regulation M4(3) standard on suitable housing sites, where there is a demonstrated need for such accommodation in that specific area.</i>

4.155. Policy 21 (3), optional Building Regulations, Part M4(2) Accessible and Adaptable Dwellings, is applicable to all new build homes, subject to viability and feasibility as detailed within the policy.

4.156. Planning applications within the AMR period, where Policy 21 (3) was applicable, identified planning permission was granted for 307 dwellings. The requirements for M4(2) Accessible and Adaptable Dwellings, where at least 25% of market housing and at least 50% of affordable housing, is regularly significantly exceeded, planning permission for homes meeting M4(2) standard being granted for 169 Market homes and 83 affordable homes.

4.157. Four sites gaining permission didn’t meet the policy, these all contained single dwellings, single dwellings are required to meet Policy 21(3).

4.158. For this year’s AMR and the Local Plan period, no dwelling gaining planning permission were subject to Building Regulation M4(3), as no one has proposed to demonstrated need for such accommodation.

## Local Plan Chapter 11 – Water Management

### Policy 37 - Flood Defences

1. *Development adjacent to flood defences must not reduce their effectiveness, or prevent or hinder their future maintenance or improvement (including set-back). Proposals should include a minimum 8m easement to allow for access to flood defences, ordinary watercourses and main rivers, unless otherwise agreed with the regulatory body.*
2. Improvement of the standard of flood defences will be supported. Where possible, development should be designed in such a way that improved flood defences can be incorporated into an enhanced public realm.
3. *Development may be required to improve the standard of flood defence infrastructure if required to make the development acceptable (taking into account climate change), and where the improvements required are not already planned and funded by risk management authorities within an appropriate timescale.*

### Policy 38 - Surface Water Storage and Drainage

1. Development of strategic facilities for the storage of water will be supported where they can be shown to improve the flood resilience of the city and are well designed.
2. Development which will reduce the effectiveness of any surface water storage operation or facility will be refused.
3. Localised surface water storage and drainage facilities will be supported.

### Policy 39 - Sustainable Drainage

1. *All development should incorporate sustainable drainage systems (SuDS) unless it has been demonstrated this is not technically or economically feasible. Major development should be accompanied by a Drainage Impact Assessment.*
2. *The Drainage Impact Assessment should account for the following:*
  - a. *run-off rates for greenfield sites should not exceed 1.4 litres per second per hectare;*
  - b. *run-off rates for brownfield sites should not exceed 50% of the current run-off rate;*
  - c. *the on-site drainage system should be capable of storing water for the 1 in 75 year (1.33% annual probability) rainfall event;*
  - d. *the site should be capable of storing the water from a 1 in 100 year (1% annual probability) rainfall event; A 30% allowance should be added to the above requirements to account for climate change and to ensure that the development is safe for its lifetime.*
3. *The drainage system should be designed so that in the event of the system failing or the tolerances being exceeded, no surface water flooding is caused to habitable buildings on- or off-site.*
4. *Site layout should have regard to any relative flood risk within the site and any existing features which could support sustainable drainage on-site.*
5. *Sustainable drainage systems must be designed with regard to Source Protection Zones.*
6. *Applications should demonstrate how the long term maintenance of the sustainable drainage system will be assured.*

**Policy 40 - Addressing Flood Risk in Planning Applications**

1. Built development in Flood Zone 3b as shown on Policies Map is not acceptable unless of a water compatible use or essential infrastructure that has passed the Exception Test.
2. Sequential Tests and Flood Risk Assessments should have regard to the local sub-division of Flood Zone 3a.
3. Development of sites or uses not allocated on the Policies Map must be supported by a Sequential Test and Exception Test as required by the Council's current standing advice.
4. Development which requires a Flood Risk Assessment and/ or the Exception Test as set out in the standing advice must demonstrate that appropriate flood mitigation, flood resilience and where appropriate, sustainable drainage measures have been incorporated in its design and layout.
5. The area of search for the Sequential Test should be the local authority boundary except in the following circumstances:
  - a. For city centre development, the area of search should be the defined city centre.
  - b. For development of one or two dwellings that would fall within Use Class C3(a), the area of search should be the ward in which the application site is located.

4.159. The Hull Local Plan includes a number of policies which seek to manage flood risk. These include Policy 37 which focuses on protecting and improving the city's flood defences, Policy 38 which seeks to address surface water issues, Policy 39 which promotes sustainable drainage and Policy 40 which seeks to address flood risk through the determination of planning applications. Policy 41 protects groundwater.

4.160. The Council's Flood Risk Management Team sit within the wider Planning Service. They are statutorily consulted about the surface water aspects of major planning applications, and an increasing number of minor applications as Planning DM and the Lead Local Flood Authority link up to be more proactive at informing development.

4.161. The purpose of consultation is to ensure that the surface water generated from a new development is managed and does not increase flood risk as a result. During the period 1st April 2023 to 31st March 2024, the Flood Team were consulted on 116 planning applications. Of these planning applications:

- Approved 74
- Refused 8
- Pending Consideration 28
- Withdrawn 6

4.162. Water management conditions are imposed to ensure the development is built in accordance with submitted drainage designs and a designated place of safety and/or a flood emergency evacuation plan is provided. Consultation and discussions prior to any decision incorporate SuDS and their inclusion into a development.

4.163. Living With Water (LWW) is a partnership between Hull City Council, Yorkshire Water, East Riding of Yorkshire Council, the Environment Agency and the University of Hull – all of which play a role in managing water in Hull and the East Riding.

4.164. Partnership working has allowed, in 23-24, for the completion of Rosmead Street (permeable paving), new schemes to be delivered, LWW 25year Blue Green Plan which aids partners in policy development and funding bids, the training of flood ambassadors. The partnership has

## OFFICIAL

also engaged, educated and trained thousands of people and delivered water butts to residents and delivered SuDS schemes in 2 schools.

- 4.165. In Derringham work is under way to store flood water on the surface within Aquagreens. An Aquagreen is an open space within the public realm, it provides a recreational area during dry periods but during heavy rain will take excess surface water away from the highway and footpaths. Aquagreens provide temporary storage of this water before slowly draining into the sewer network.
- 4.166. 6 Aquagreens are at various stages of construction in Derringham, some have already been completed with others well underway. Once all 6 are fully completed they will better protect 54 residential properties.

### Groundwater Protection

#### **Policy 41 Groundwater Protection**

- 1. Within Source Protection Zone 1, as shown on Map 11.2, all development will be required to be supported by a detailed hydro-geological risk assessment.*
- 2. Where development within Source Protection Zones 2 and 3, as shown on Map 11.2, has the potential to have a negative impact on the aquifer, it should demonstrate, through a hydro-geological risk assessment where necessary, that this has been taken into account and mitigated for.*
- 3. Applications for development which has the potential to have a negative impact on Source Protection Zones, which has not demonstrated consideration of their presence and how the risk of pollution has been mitigated, will be refused.*

- 4.167. Policy 41 is implemented in partnership with statutory consultee the Environment Agency, to ensure the protection of groundwater source zones. Within the AMR period there were no permissions granted contrary to Environment Agency advice or Policy 41.
- 4.168. Data for the protection of Ground Water Source Zones is gathered by the Environment Agency.
- 4.169. One planning application has had a condition imposed relating to groundwater protection.

## Local Plan Chapter 12 – Open Space and the Natural Environment.

### Open Space

<b>Policy 42 - Open Space</b>
<p><b>Open space sites</b></p> <p>1. The Policies Map shows the following sites:</p> <ul style="list-style-type: none"> <li>a. Existing open space sites that are 0.1 hectares or greater; these are listed in Table 12.4.</li> <li>b. New open space allocation site 1. Schemes which encourage people to visit, view and engage with the scheduled monument (South Blockhouse) will be supported but such schemes should consider the South Blockhouse as an importance archaeological feature. Designs for public open space in this area should aim to incorporate the archaeological findings and present them in an accessible way.</li> <li>c. New and existing green space in the Kingswood area. The detailed allocations are made within the Kingswood Area Action Plan.</li> <li>d. The design/layout of new open spaces should give consideration where appropriate, to the provision of facilities for dog walkers but not where this recreational activity on the site would have an adverse impact on the integrity of the Humber Estuary International Site.</li> </ul>
<p><b>Open space standards</b></p> <p>2. Schemes that increase open space provision, particularly in order to rectify identified deficits, will be supported.</p>
<p><b>Existing open space protection, including all open spaces that meet the criteria for open space contained in Table 12.1</b></p> <p>3. Open space, sports and recreational buildings and land, including playing fields, should not be built on unless:</p> <ul style="list-style-type: none"> <li>a. An assessment has been undertaken which has clearly shown the buildings or land to be surplus to requirements, including consideration of population growth over the plan period, its amenity value, and its strategic function. The assessment should fully consider the potential to re-use the site to address deficits for all types of open space in the area; or</li> <li>b. The loss resulting from the proposed development would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location; or</li> <li>c. The development is for alternative sports and recreational provision, the needs for which clearly outweigh the loss.</li> </ul>
<p><b>On-site open space requirements</b></p> <p>4. On-site open space requirements for the Local Plan's housing allocation sites that require open space provision within them are listed in Table 12.5.</p> <p>5. Housing windfall sites may require on-site open space to make them acceptable in planning terms, where there is or will be a deficit of open space and it is practicable to do so. The on-site open space should provide for the needs of the estimated future population of the development. The on-site open space requirements will be based on the latest assessment of open space need, and the standards listed in Tables 12.2 and 12.3.</p> <p>6. Where it is demonstrated that it is not feasible to provide on-site open space, it will be provided off-site through a legal agreement securing a financial contribution.</p>

OFFICIAL

4.170. During this year reporting period six planning applications were permitted which will potentially lead to the loss of approximately .4ha of designated open space. One application for the potential loss of .04ha of open space was refused during this period. Four of the six permitted permissions involved the very small loss of sports grounds, playing fields or hard-court pitch space. The table below gives more details of these applications.

Table xx: Planning applications involving the potential loss of designated Open Space.

Application Details	Address	Decision and date	Open Space Site No. and type	Size of loss (in ha)	Total size of site (In ha)	Open Space Assessment Submitted and showing surplus	Policy complaint
23/00118/FULL – Installation of a new modular unit to the North of the building to accommodate the FSU1 children, relocation of existing covered outside play space and fence line to bring existing unusable areas into use.	Adelaide Primary School, Walker Street.	Permitted – 11/04/23	Site 71 – Adelaide Primary School, Walker Street. Education Site.	0.005	0.78	Submitted - No Surplus - No	N*
24/00323/S73 – Single Storey Extension to an existing sports pavilion (vary approved plans).	Sports Pavilion, University of Hull, Inglemire Lane.	Permitted - 07/06/23	Site 150 - University of Hull Sports Ground, north of Inglemire Lane. Education Site.	0.09	14.73	Submitted - No Surplus - No	N**
23/02156/FULL – Erection of single storey extensions to the Pavilion and to the Martin Music School to add new external toilets for visitors.	Hymers College, Hymers Avenue.	Permitted - 14/07/23	Site 88 - Hymers College, Hymers Avenue. Education Site.	0.004	15.46	Submitted - No Surplus - No	N***
23/02978/COU – Change of use from public amenity land to private enclosed garden (towards rear/side).	71 Western Gailes Way.	Permitted - 02/10/23	Site 610 - Natural green space, Western Gailes Way. Natural/semi-natural green space.	0.004	3.94	Submitted - No Surplus - No	N
23/03091/FULL - Proposed New Assembly and Activity Hall.	Chiltern Primary School, Chiltern Street.	Permitted - 19/10/23	Site 66 - Chiltern Primary School. Education Site.	0.06	0.87	Submitted - n/a Surplus - n/a	Y
23/03463/FULL - Use of land as waste storage compound accommodating recycling skips.	University Of Hull, Land North Of Inglemire Adjacent To 162 Inglemire Lane.	Permitted - 26/01/24	Site 150 - University of Hull Sports Ground, north of Inglemire Lane. Education Site.	0.11	14.73	Submitted - No Surplus - No	N*
23/02911/FULL - Redevelopment including: - 1) Change of use of land to	Land To West Of 168 Saltshouse Road.	Refused - 15/03/24	Site 312 - Sutton Golf Course, Salthouse Road.	0.04	46.04	Submitted - No Surplus - No	Y

## OFFICIAL

provide part agricultural growing area and 2) Erection of business starter units including cafe and amenities block.			Outdoor sports facility				
--	--	--	-------------------------	--	--	--	--

\* Loss of open space mitigated as site not part/very small part of the functioning Playing fields/playing pitches.

\*\* Loss of open space mitigated by the wider community benefits to sports development in the city.

\*\*\* Loss of open space mitigated as the development is for ancillary supporting principal use.

4.171. Policy 42 also applies to undesignated open spaces that meet the criteria for open spaces as listed in Table 12.1 - summary of open space types in Hull. If an open space site is identified as matching the description given in that table, it will be given the same protection in policy terms that designated open space sites have. Only two planning applications involving the loss of undesignated open space were submitted during this reporting year, both for the same site, one was refused, and the other was withdrawn. Details of both are given in the table below. One application involving development on an undesignated open space which had previously been refused, was subject to a planning appeal during the reporting period, this was ultimately dismissed by the Planning Inspectorate, and details are shown below.

Table xx: Planning applications involving the potential loss of undesignated Open Space.

Application Details	Address	Decision and date	Open Space Site No. and type	Size of loss (in ha)	Total size of site (In ha)	Open Space Assessment Submitted and showing surplus	Policy complaint
22/01134/OUT - Erection of 4 x dwellings (landscaping reserved for subsequent approval).	Land To South Of Grandale, Grandale.	Withdrawn - 01/06/23	Undesignated site. Amenity green space.	0.13	0.13	Submitted - No Surplus - No	n/a
21/01587/COU - Change of use of amenity land to private garden.	22 Strensall Road.	Appeal dismissed - 27/06/23	Undesignated site. Amenity green space.	0.003	0.003	Submitted - No Surplus - No	Y
23/03495/OUT - Outline application for building for uses under - E(d) indoor sports, E(e) medical or health services, E(f) nursery/creche, F1(a) education, F1(b) display of art, F1(e) public hall, F2(b) local community meeting place, of F2(c) outdoor sports.	Land To South Of Grandale, Grandale.	Refused - 07/02/24	Undesignated site. Amenity green space.	0.13	0.13	Submitted - No Surplus - No	Y

4.172. Open space contributions were secured with the granting of permission for numerous windfall sites. Twenty -nine planning permissions were granted on unallocated housing sites during the reporting period, all with a legal agreements were signed by the applicant to secure a financial contribution to provide acceptable off-site open space in lieu of on-site open space provision.

4.173. **Green infrastructure and the Green Network**

**Policy 43 Green infrastructure and the Green Network**

1. Development that adversely affects the continuity and value of the Green Network, as designated on the Policies Map and Table 12.4, will not be permitted.
2. Development within or in close proximity to the Green Network should seek to protect and/ or enhance the functionality and connectivity of the corridor.
3. Development adjacent to the River Hull should include a minimum of 8 metre space (unless otherwise agreed) to allow for:
  - a. a north-south pedestrian and cycle way;
  - b. flood defences as required to protect the city;
  - c. contractors to access and maintain existing and proposed flood defences; and
  - d. protection of wildlife corridors.
4. Development should incorporate and enhance existing and/ or new green infrastructure features within their design, proportionate to their scale.
5. The Policies Map shows the Green Network in the Kingswood area. The detailed allocations are made within the Kingswood Area Action Plan.

4.174. Development proposals at Wawne View delivers Green Infrastructure provision as outlined in the Kingswood Area Action Plan.

**Policy 44 Biodiversity and wildlife****Policies Map**

1. Wildlife designations within the city boundary are shown on the Policies Map. This includes the Humber Estuary International Site (Ramsar, SPA, SAC and SSSI), Local Nature Reserves (LNR), and sites likely to qualify as Local Wildlife Sites (LWS). Allocations within the Kingswood area are made within the Kingswood Area Action Plan.

**European sites (Ramsar, SPA, SAC)**

2. Development that may affect an existing or proposed European or Ramsar site should demonstrate through a Habitats Regulations Assessment that any impact will be acceptable. This will need to consider the impact of the scheme both on its own and in combination with other schemes that already have planning permission. Development will not be permitted if it is likely to result in a significant adverse impact unless there is an imperative reason of over-riding public interest.

**National sites (SSSI)**

3. Natural England will be consulted on proposals for development that are likely to have an effect on a SSSI. Development that will have a negative effect will not normally be permitted, except where the benefits of development substantially outweigh both the impact on the site and any broader impacts on the wider network of National Sites. In such cases, compensation for the harm will be required.

**Local sites (LNR, LWS)**

4. Development resulting in the loss or significant harm to a Local Wildlife

Site or Local Nature Reserve will only be permitted if it can be clearly demonstrated there is a strong need for the development, and that there are no other appropriate locations for the development. Where loss or harm cannot be prevented or adequately mitigated, as a last resort, appropriate compensation for the loss/harm must be agreed.

5. Until formally reviewed, an open space site will be afforded the same level of protection as a Local Wildlife Site if it meets the Council's LWS selection criteria.

**Protected species**

6. Development adversely affecting a species protected by legislation will not be allowed.

**Promoting biodiversity improvements**

7. Development should seek to achieve a net gain in biodiversity habitat commensurate with the scale of the development, and schemes will be supported where they:

a. Conserve, restore, enhance or re-create biodiversity interests, particularly national Priority Habitats and Species and locally important habitat and species identified in the Hull Biodiversity Action Plan.

b. Safeguard, enhance, create and connect identified habitat networks

in order to:

i. protect, strengthen and reduce fragmentation of habitats;

ii. create a coherent ecological network that is resilient to current and future pressures;

iii. conserve and increase populations of species; and

iv. promote and enhance green infrastructure.

4.175. Hull has a wide and diverse biodiversity. In particular, the estuarine environment supports a number of protected habitats and species, many of which are of national and international importance. Whilst the most notable habitats and species are associated with the Humber Estuary, there are still a number of important habitats and species within the city’s boundaries.

**Policy 44 (1, 2 and 3)**

4.176. Within the reporting year no adverse impacts on the Humber Estuary were incurred

4.177. The Humber Estuary is the city’s only Site of Special Scientific interest (SSSI). It is also designated as a Special Area of Conservation (SAC), a Special Protection Area (SPA) and a Ramsar site. Bird usage along the Humber frontage (King George Dock and Victoria Dock to St Andrew’s Quay) is monitored as part of the Local Plan. Qualifying species encountered are shown in the Table 4.24 below along with the month of peak count. No update for 2022-2023 available due to resource issues.

**Table 4.24 : Humber Estuary Bird Surveys Humber Frontage April 2021 – March 2022**

Species	Peak Count	Month	Location
Mallard	12	January 2022	William Wright Dock
Curlew	3	January 2022	Green Port Hull Mudflats
Redshank	29	February 2022	River Hull North Scale Lane
Shelduck	4	April 2021	Green Port Hull Mudflats
Turnstone	4	October 2021	William Wright Dock
Ringed Plover	11	October 2021	Green Port Hull Defences
Sanderling	19	January 2022	Green Port Hull Mudflats
Teal	2	October 2021	On Estuary, by Albert Dock
Wigeon	3	October 2021	Land to the west of St Andrew’s Quay

**Policy 44 (4 and 5) Local Sites**

**Local Nature Reserves**

- 4.178. Hull has two Local Nature Reserve, Rockford Fields and Noddle Hill. Rockford Fields saw access improvements funded by the area team. Noddle Hill continues to be the focus of a natural rewilding study by the Centre for Ecology and Hydrology. A successful harvest mouse breeding scheme by members of the community has seen several hundred harvest mice, a Hull biodiversity action plan species, released on site.
- 4.179. Local Sites in Positive Management are covered by the Defra, Local Authority Single data list 160-00, the proportion of sites with positive conservation management. In 2020/21 in Hull, an increase in active management was seen from 17% to 20% of Local Wildlife Sites in positive conservation management.

**Policy 44 (6)**

- 4.180. Whilst protected species presence was identified as a constraint in several developments; none were permitted that led to an adverse effect. Mitigation and where necessary, compensation measures were secured prior to determination.

**Policy 44 (7)**

- 4.181. Biodiversity enhancements were secured through several proposals including industrial, large scale housing and other major projects. Gains included targeted ecological landscaping design or the inclusion of bat or bird roosting features.
- 4.182. The ratification of the Environment Act in November 2021 introduced net gain in development. Hull has been actively pushing for the use of the Defra Biodiversity Metric to quantify compliance with policy 44. Several schemes have seen uplifts in biodiversity on site and have redesigned schemes to deliver biodiversity gains.
- 4.183. Large gains in biodiversity are due to be delivered through the Castle Hill flood alleviation Scheme, Wawne Road, Dane Park and Isledane. Off-site delivery of ecological compensation measures will be delivered through the latter two. The new sports hall at Malet Lambert School is supported by onsite biodiversity improvements as do several small-scale housing applications

**Trees**

**Policy 45 Trees**

**Residential and commercial development and new trees**

1. Three new trees of native species and local provenance will be required to be planted for each new dwelling (this excludes conversions and changes of use). A presumption that the trees will be planted as part of the development rather than off-site will apply when appropriate. The planting of new trees will be encouraged in new commercial development in appropriate places or within landscaping schemes wherever possible.

**Tree protection and replacement**

2. Hull City Council will make Tree Preservation Orders (TPOs) when necessary, in order to protect specific trees, groups of trees, or woodlands, in the interests of amenity and biodiversity.

3. The Council will not grant permission for the loss of or damage to a tree, group of trees or areas of woodland of significant amenity, biodiversity or historic value unless there is deemed to be an immediate hazard to public safety.

4. Trees protected by Tree Preservation Orders should be retained whenever possible, unless:

- a. They are dead, dying, diseased, or represent a hazard to public safety; or
- b. The Council's arboricultural officer deems the felling to be acceptable with regards to the Council's policy on urban forestry and tree management; or
- c. The benefit of the proposed development outweighs the benefit of their retention.

5. If felling is deemed acceptable by parts (3) or (4), then the planting of two replacement trees in an appropriate location will be required.

**Policy 45 (1)**

4.184. Three trees per new dwelling is required through policy 45. Table 4.25 details delivery of the policy through applications approved during the AMR reporting period.

4.185. Policy 45(1) has secured the planting of over 2000 trees.

4.186. For the AMR reporting period, 10 planning application gaining permission have had this required by condition. Two planning application contained this policy as a reason for refusal.

**Local food growing**

**Policy 46 Local food growing**

1. The use of land and buildings as new allotments, orchards and for local food growing spaces and production will be supported, including the temporary use of vacant or derelict land or buildings and the use of amenity green space on housing estates and other open space areas, where this does not conflict with other policy objectives or land use priorities.
2. The incorporation of community gardens, allotments, orchards and innovative spaces for growing food, including green roofs, will be encouraged and supported in new development where possible and appropriate, particularly where there is demand for food growing space in the vicinity of the application site.
3. The inclusion of productive trees and plants in landscaping schemes will be encouraged where appropriate.

- 4.187. A new allotment site was consented as part of the detailing for the final parcel of land at Wawne Road. The northern areas of Kingswood have poor access to food growing opportunities and the delivery of 60 x 125 m<sup>2</sup> plots goes a long way to address this deficiency.
- 4.188. Schemes approved during the reporting period with productive trees and plants are detailed in the table below.
- 4.189. Policy 46 Part 3 will continue to be encouraged as appropriate through SPD 10 -Trees (Protection and Use in Development) adopted January 2019. Currently no delivery details of Policy 46 are required to be monitored.

## Local Plan Chapter 11 – Environmental Quality

### Policy 47 Atmospheric Pollution

1. Applications for residential development within the Air Quality Management Area as shown on Map 13.1 must be accompanied by an assessment of air quality. Residential development in the NO<sub>2</sub> Area of Exceedance as shown on Map 13.1 will not be allowed unless it can be demonstrated how the air quality within the building will be brought within acceptable limits.
2. An assessment of air quality must accompany applications for major development which could individually, or cumulatively with planning permissions and/or developments under construction:
  - a. worsen air quality within an Air Quality Management Area;
  - b. lead to the creation of a new Air Quality Management Area;
  - c. increase the number of sensitive receptors within an Air Quality Management Area; or
  - d. have a detrimental impact on local air quality anywhere in the city.
3. The scope of any assessment of air quality should be agreed prior to the submission of a planning application and will be required to:
  - a. identify the site, development proposal and area in which the impacts will be assessed;
  - b. assess the existing air quality;
  - c. assess the impact of the proposal on air quality individually and in conjunction with any outstanding planning permission or development under construction; and
  - d. identify mitigation measures and quantify the impact of those measures.
4. In addition to criteria 2 and 3 above, if the development is located within 200m of the Humber Estuary SAC, the application should specifically address the impact of the proposal on the SAC designated saltmarsh. Where effects cannot be avoided, appropriate mitigation measures should be provided to ensure that there is no adverse effect on the integrity of the Humber Estuary SAC.
5. Development which cannot appropriately mitigate air quality concerns, including dust and odour, will only be supported where the social and economic benefits significantly outweigh the negative impact on air quality.

### Policy 49 Noise Pollution

1. Development which would site noise sensitive receptors in proximity to noisy uses or areas should demonstrate that there would be an acceptable level of amenity for end users. Where this has not been demonstrated, development will not be allowed.
2. Development of noisy uses should demonstrate that adverse impacts of noise can be mitigated and that there would be an acceptable impact on the amenity of surrounding land uses, including the Humber Estuary International Site.

### Policy 50 Light Pollution

Development in proximity to sensitive receptors such as residential properties or the Humber Estuary International Site should ensure that lighting is designed in such a way as to avoid an adverse impact on those sensitive receptors.

**Atmospheric Pollution**

4.190. For the AMR reporting period, conditions have been imposed on

- 40 applications relating to atmospheric pollution,
- 75 relating to noise pollution, and
- 1 relating to light pollution.

**Land Affected by Contamination**

**Policy 48 Land Affected by Contamination**

*1. Development which:*

*a. involves the development of land known or suspected to be contaminated; and/or*

*b. would have a vulnerable end user; and/or*

*c. could create a new pathway between a contamination source and a vulnerable receptor (including local, national and internationally designated wildlife sites and the groundwater aquifer)*

*must be accompanied by an appropriate contamination assessment.*

*2. Development will be supported where it has been demonstrated that appropriate mitigation can be carried out and will have conditions attached to require the appropriate works to be carried out.*

4.191. Conditions have been imposed on 33 applications relating to contamination over the AMR reporting period.

**Hazardous Substances Consent**

**Policy 51 Hazardous Substances Consent**

*1. Permission for Hazardous Substances Consent will be granted where it has been demonstrated that the level of risk to the surrounding community and environment is within acceptable limits and that the benefits from the use of the site outweigh that level of risk.*

*2. Development in proximity to a site with a Hazardous Substances Consent must demonstrate that regard has been had to the presence of the Hazardous Substances Consent and the design/layout amended accordingly and that the benefits of the development outweigh the level of residual risk.*

4.192. No hazardous substances applications have been received over the AMR reporting period.

## Infrastructure and Delivery

### Policy 52 Infrastructure and Delivery

1. *To ensure the delivery of infrastructure requirements, and to ensure the strategic and sustainability objectives of the Plan are met, the Council will:*
  - a. *Support the provision of appropriate new infrastructure, including to mitigate and adapt to climate change, working with partner organisations and the East Riding of Yorkshire Council where necessary, to deliver the priorities of the Local Plan.*
  - b. *Support measures to protect, enhance or improve access to existing facilities, services and amenities that contribute to business needs, quality of life of residents, and visitor requirements, including access to information and communication technologies.*
  - c. *Facilitate the timely provision of additional facilities, services and infrastructure to meet identified needs, whether arising from new development or existing community need, including those of the emergency services and utilities, in locations that are appropriate and accessible.*
  - d. *Seek additional infrastructure funding from European, national and local funding sources to enable development to come forward.*
2. *To facilitate the delivery of identified place-shaping infrastructure requirements in the city, new development will be expected to contribute through the Community Infrastructure Levy Regulations, or successor regulations or guidance.*
3. *S106 Planning Obligations will be required where they directly relate to the nature and potential impact of development, taking account of material considerations, including viability of development.*
4. The timing of provision of infrastructure and facilities will be carefully considered in order to ensure that appropriate provision is in place before development is occupied. An Infrastructure Delivery Programme will guide how infrastructure will be funded and over what time frames it will be delivered.

4.193. The Community Infrastructure Levy (CIL) charging schedule for Hull came into force on 1 January 2018. The intention was to raise levies from anticipated housing and retail development to be used to improve or provide pre-determined or planned 'place shaping infrastructure' that includes public open space and public realm works. New working arrangements in managing this fund have been put in place. CIL differs from s106 planning obligations as it addresses infrastructure shortfalls. Funds can be combined in a way that addresses infrastructure gaps that have already been identified.

4.194. New CIL regulations require consideration of anticipated levies. The current charging schedule requires a £60 per sqm charge relating to housing and other rates for retail in certain parts of the city. The income is also affected by the timing of development, with the larger elements associated with housing allocations in East Hull.

4.195. Greater detail of CIL and the Hull Infrastructure Funding Statement 2022-2023 is available in section 6 of this document

## Section 5 Co-operation - plan making and other planning activity.

### ***The Town and Country Planning (Local Planning) (England) Regulations 2012 Authorities' monitoring reports***

*34 (6) Where a local planning authority have co-operated with another local planning authority, county council, or a body or person prescribed under section 33A of the Act, the local planning authority's monitoring report must give details of what action they have taken during the period covered by the report.*

- 5.1. The Duty to Co-operate requires the Council to engage constructively, actively and on an ongoing basis with neighbouring authorities, and to have regard to the activities of other prescribed bodies. Processes are in place and will be maintained to ensure the Council continues to satisfy the requirements of the Duty. (This is referred to further in the Council's Statement of Community Involvement).  
<https://www.hull.gov.uk/strategies-policies-plans-performance/statement-community-involvement#:~:text=The%20SCI%20sets%20out%20how,planning%20applications%20is%20also%20included.>
- 5.2. The compact nature of the city's administrative area and single shared administrative boundary with the adjoining East Riding of Yorkshire points clearly to the important inter-relationship between these two areas. Hull has a history of successfully working with the East Riding of Yorkshire on planning matters that are mutual concern, including the previous publication of a Joint Planning Statement, and the focus now on a Statement of Common Ground, to ensure it reflects the strategic planning position of the two authorities and ensures Local Plan policies reflect that broader strategic framework. These will be reviewed and updated as the plan develops to address changing circumstances, as was done to inform Examination of the East Riding Local Plan.
- 5.3. The Council is also party to a Joint Strategic Planning Protocol. The protocol is between Hull City Council, East Riding of Yorkshire Council the Local Enterprise Partnership (LEP), the Humber Local Nature Partnership (LNP) and the Hull and East Riding LNP. The objective of this is to ensure effective working relationships continue beyond plan making through the determination of planning applications which have potentially cross boundary implications. The intention is to support the delivery of the overarching strategic policies established within each authorities Local Plan.
- 5.4. The Council continues to work with other local planning authorities in North Yorkshire including through participation in both a Heads of Planning Group and a Development Forum. Both of these present opportunities for sharing best practice and joint approaches. The value of these meetings will be reviewed in due course in light of local government reorganisation in North Yorkshire and locally in relation to devolution.
- 5.5. The Local Plan presents a means of implementing the Council's key strategies and those of its partners through the development and use of land across the city.
- 5.6. Hull City Council published its new Economic Strategy for the city in August 2021. The Humber LEP was wound up in March 2021 and was replaced in April 2021 with the Hull and East Yorkshire (HEY) LEP. The HEYLEP produced a new Economic Growth & Workforce Wellbeing Strategy 2021-2026, and the Local Plan will need to be mindful of this document

when produced and it will also provide the delivery framework for the aspirations and ambitions of the city's economic strategy.<sup>4</sup>

5.7. Other relevant strategies include:

- Hull Climate Emergency;  
<https://www.hull.gov.uk/environment/pollution/hull-2030-carbon-neutral-strategy>
- Hull Community Plan  
<https://www.hull.gov.uk/strategies-policies-plans-performance/community-plan>
- Hull Housing Strategy; and  
<https://www.hull.gov.uk/downloads/file/1734/the-hull-housing-strategy>
- Health and Well Being Strategy.  
<https://www.hull.gov.uk/downloads/file/2054/public-facing-strategy>
- Local Transport Plan.  
<https://www.hull.gov.uk/parking-and-transport/cycling-and-walking/local-transport-plan-2020-2026>
- Further details of Council Strategies and Plans can be found below:  
<https://www.hull.gov.uk/open-data/publication-scheme/4>

---

<sup>4</sup> The Spring Budget 2023 set out that government was minded to withdraw central government support (core funding) for LEPs from April 2024 and to transfer LEP functions to local authorities; this has occurred in Hull.

## Section 6 Development funding received.

- 6.1. The Planning Regulations require details about planning obligation (s106 or from Unilateral Undertakings) funds received and where/how these are spent. In Hull this is about where public urban greenspace and play provision can be improved, driven by the impact of new development and where additional local needs can best be met. Something similar is also required for Community Infrastructure Levy (CIL) funding, with a difference that local open space deficits are established, and a charge is made to address these.
- 6.2. The Council is required to produce an Infrastructure Funding Statement (IFS) yearly that sets out details about Community Infrastructure Levy (CIL) / Section 106 planning obligation receipts and related projects. This AMR summarises details held within the Statement and signposts where to view this. Details of individual projects are provided here: <https://www.hull.gov.uk/downloads/download/166/hull-infrastructure-funding-statement>
- 6.3. Planning obligations are requirements in the form of physical works required as a way of mitigating the impact of development when planning permission occurs. In Hull this mitigation is often in the form of a monetary sum to be used to offset the impact of development on existing public open space and play provision. Community Infrastructure Levy funding (CIL) is also collected and managed through the Council, but these funds are used in a way that aligns to strategic development priorities established in the Local Plan, in terms of where major new housing occurs. As a consequence good place shaping occurs and there is transparency in terms of developers being able to see the benefits of their individual contributions and also for local communities.
- 6.4. Since last year the combination of wards making up the Area Committees has changed. The new Area Committees now include West, North and East Hull. Over the last year to April 2024, £1.07m S106 planning obligation funding has been made available for public open space and play space provision and distributed as shown in figure 6.1. This includes funds received and carried forward from previous years. The majority of available funding lies within the West Area Committee part of the city.

- 6.5. Just over £2m S106 funding has been allocated/committed by Area Committees toward provisions and in close proximity to where development has to be mitigated through planning obligation requirements. This is split by £888K in East, £597K in North and £591K in West Hull. £3.6m is also expected to be used toward Broadacre School, some of which has been received by way of anticipated instalments. £55K has also been received as a contribution towards tree provision.
- 6.6. Over the period 1 April 2023 to 31 March 2024, 37 planning consents featured planning obligations required in mitigating development proposals. It is difficult to estimate the potential financial contributions from the totality of these consents but the majority relate to conversions within or near the city centre.
- 6.7. Community Infrastructure Levy (CIL) is effectively a tariff that applies to certain forms of development where this does not unduly harm its viability. CIL differs from S106 funding which is required as a tariff on certain forms of development and this is used to fund place shaping infrastructure including public realm. In Hull, a tariff of £60 per sqm of housing development applies, but only in more viable parts of the city including Kingswood, west Hull and around Sutton. This is used to help pay for a pre-determined 'place shaping infrastructure' programme of public realm works. The CIL Protocol also requires a split of 70% receipts to be used toward strategic projects, 25% locally and 5% towards management fees.
- 6.8. Since the start of the charging schedule the Council has considered over 37 planning applications liable to CIL. Most of these consented schemes were exempted because they were for charitable trust or self build purposes. Around £350K has been received in CIL payments to date. £245K is to be used as an identified priority toward public realm improvements in the city centre and around £87K is allocated to schemes local to the ward where the CIL applies. £17K covers costs from within Planning Services in managing the process. There is potentially more to follow subject to planning consents being confirmed on allocated sites for housing including at Riverside (Kingswood) and East Carr.
